Great Britain.

A DYNAMITE EXPLOSION.

LONDON, June 19.—The dynamite stored in the joiners' shop, on the Burbank road, Glasgow, exploded to-day, killing six workmen and wrecking several houses.

RELEASE OF ANOTHER AMERICAN FORGER.

Application was made to day before the Court of the Queen's Bench for the discharge of Charles Brent, the Louisville forger. The Attorney General offered no opposition to his release, but made a statement in relation to the case. The Court accordingly granted an order for the prisoner's release.

THE TROUBLE IN BARBADOES.

LONDON, June 19.—The Bishop and Archdeacon of Barbadoes and thirty-four clergymen, constituting the entire body of the Barbadoes clergy, and four Moravian missionaries, have signed a statement for presentation to Earl Carnarvon, Colonial Minister, detailing the outrageous character of the late riots on that island. They say the riots were not caused by any suffering, but by general impression among the negroes that the land and property of the planters would be divided among them with the Governor's consent. They state they cannot tell how the impression was created, but it was undoubtedly general, and the belief is still very general that all this property has been awarded to the negroes by the Queen at the Governor's instance, and is being wrongfully withheld from them, consequently the feeling against all property holders is intensely bitter and hostile, and it will require firmness and judgment on the part of the authorities to remove this impression, even if it is removable during the present generation.

EXPLOSION OF COAL GAS—FAILURE—ROWING.

LONDON, June 19.—An explosion of coal gas to day on board the ship Atlantic bound for Hong Kong, while in the Penarth docks at Cardiff, killed six men and injured several. The vessel was seriously damaged.

Kenway & Rees, grain merchants, of Cardiff, suspended. Their liabilities are $1,600,000.

A match rowing race for $500 a side took place to-day on the Thames, from Putney to Mortlake, between Henry Thomas, of Hammersmith, and Thomas Winship, of Newcastle. Thomas was the favorite at the start, and won the race in twenty-four minutes and thirty-two seconds.

A SMALL SPAT WITH PERU.

LONDON, June 19.—In the House of Commons to-night, Mr. Bourke, under Secretary for Foreign Department, stated that Lord Derby had recently written to the Peruvian Minister in regard to the continued detention of the captain and mate of the Talisman, as follows: "I have remonstrated in the strongest manner in the name of Her Majesty's Government against the continued detention of the prisoners and the unfriendly conduct of the Peruvian Government. Unless the matter is brought to a speedy termination, it is impossible that friendly relations can continue." To this the Peruvian Minister replied, recapitulating the facts in the case, and defending the conduct of Peru, but not really altering the situation. Mr. Bourke said in conclusion: It appears to the Government that the further detention of the prisoners is unjustifiable, and we consider it our duty to request their immediate release. This declaration was received by the House with loud cheers.

The Eastern Question.

A FRENCH VIEW OF THE SITUATION.

LONDON, June 19.—The Paris correspondent of the *Times* in a letter reviewing the present attitude of the Eastern question, concludes as follows: "The Czar, yesterday, in taking leave of a lady who wished him a good journey, replied with undisguised satisfaction, 'I hope I shall spend more tranquil days at Jugenheim, than those I have passed at Ems.' Such a remark as this *is tantamount to a specific promise, and it may be inferred that the European Powers* are determined to remain spectators of what passes between Turkey and her subjects and vassals. This does not mean that the pacification of Turkey is an accomplished fact, or that we are on the eve of its being effected. The insurgents do not seem disposed to lay down their arms, nor Montenegro and Servia to abandon their pretensions of annexing, the one Herzegovina, and the other Bosnia with the consent of Turkey herself; but what is known to-day appears to indicate that the European Powers will support the insurgents and their neighbors, though none will endeavor to thwart their designs, and when the insurgents and the Porte come face to face and Europe is seen to remain a spectator, this insurrection will perhaps finish as it began, that is, without anybody knowing the reason why. At the present moment everybody, particularly the six Powers, are convinced that peace will not be disturbed beyond the frontiers of Turkey."

TROUBLE FEARED IN JERUSALEM—APPREHENSIONS OF A GENERAL RISING IN CONSTANTINOPLE.

LONDON, June 20.—The *Prussian Coоss Gazette* publishes a private letter from Jerusalem, which says that great excitement and anxiety prevail there in consequence of the excesses of the Turkish authorities and the threatened rising of the populace. On the 2d of June, the Christians, fearing an attack, barricaded their houses, and the foreign residents kept an armed watch throughout the night. The Germans met at their Consulate, organized for mutual defense, and sent to their home government a formal application for military assistance. Turkish soldiers have since permanently encamped in the public square.

A Berlin dispatch to the *Daily News* says accounts received from all sources are full of apprehension of further violence, and perhaps a general rising in Constantinople.

PROJECT OF CREATING A TURKISH NATIONAL ASSEMBLY LIKELY TO FAIL.

CONSTANTINOPLE, June 19.—The Ministers of the Sultan differ among themselves on the question of creating a national assembly, and the constitution which was promised will probably be indefinitely postponed.

A FIRE IN MOSCOW.

MOSCOW, June 19.—A fire here last night destroyed over fifty houses. The loss is large. Three-fourths of the town of Kadschorz, in the Caucaus, including the bazaar, was burned Saturday.

Marine News.

LONDON, June 19.—The steamships Indiana, from Philadelphia, Sidonian and Somerset, from New York, have arrived out.

MOVILLE, June 19.—The steamship Moravian, from Montreal, has arrived.

TELEGRAPHIC PERSONALS.

The Emperor and Empress of Brazil are to remain in Philadelphia until the sixth of July.

Luther Perkins, a young lawyer, was shot, and killed at Austin, Miss., on Sunday by Willis Gibson, a merchant.

P. C. Doyle, the leading spirit of the recent disastrous miners' strike at Irwin's, Pa., was drowned on Sunday evening in the Youghiogheny river, while bathing.

T. Foster, of Solomon City, Kansas, was shot and mortally wounded at Reed's Station, eight miles from Carthage, Missouri, by E. A. Hoag, for the seduction of his wife.

In New Orleans, yesterday, Thomas Shelly, aged eleven, in attempting to board a Canal street car, fell under the wheels and was crushed to death. Euffene Perez, aged six, fell in the river and was drowned.

Bluford Wilson, Solicitor of the Treasury, will make known his resignation in a few days. Mr. Wilson left Louisville for Washington on Saturday night last, and before going stated positively that he would immediately tender his resignation.

The duel which has been impending at Memphis for several days between ex-Congressman Schloss and Mr. Moore, of Tuscumbia, Ala., has been settled amicably by mutual friends, and the parties left for home last night. The difficulty grew out of strictures in their respective papers.

O. M. Foster, who murdered an unknown colored man in Warren county, Missouri, last August, was hanged at Warrenton between seven and eight o'clock yesterday morning. Foster had two trials, and was convicted in both. Great efforts had been made to obtain a commutation of sentence, but Governor Harding declined to interfere.

A dispatch from Virginia City reports that a fire broke out at noon yesterday, destroying the Globe Hotel and about twenty-five dwellings. It is rumored that two or three lives were lost. No mining property was damaged, though the Hale & Norcross works were in great danger sometimes. Loss $40,000.

Grand Ratification Meeting in Washington City—Speeches by Senators Morton, Sherman, Frelinghuysen and Oglesby, and General Butler—The Crowd Call Upon Mr. Blaine at His Residence—He Addresses Them Briefly.

WASHINGTON, June 19.—There was an immense mass meeting held in this city to-night to ratify the Cincinnati nominations. The meeting was voted as the largest that has occurred in this city since the war. The prominent men on the platform were President Grant, Senators Sherman, Morton, Frelinghuysen and Oglesby, Secretary Chandler, the Attorney General, Treasurer New, General Butler, Rev. Dr. Newman, and very many other prominent persons. The meeting was presided over by Senator Logan. Speeches were made by Senators Sherman, Morton, Frelinghuysen and Oglesby, Attorney General Taft and General Butler. The speakers all gave unbounded approbation to the nomination. Senator Morton was the only one of those present who was a candidate for nomination. Letters were read from Governor Jewell, Senator Conkling and Secretary Bristow, expressing their hearty approval of the nominations, and their determination to give the ticket their support. General Butler said he desired to repel a slander upon Massachusetts. At the Convention one of the delegates said they would only vote for one man. He would say they would give a majority for any man nominated at this convention. The speakers generally alluded to their principles in favor of hard money, and General Butler said they could not stop to quarrel over minor questions of policy. He might differ from some of his political friends on some of the questions, but he was chained to the oar and must pull in the boat until every negro in the South can sleep in his cabin as well protected as he, the speaker, could in Massachusetts. Attorney General Taft alluded to his personal knowledge of Governor Hayes, his political principles, etc., and commented upon the principles of the Republican party. He concluded by saying: Popular education is the hope of the Republic. I trust that the time be not far distant when all people will acquiesce in sustaining the common schools, and when they who would ask a division of the school fund will yield to the genius of Republicanism and be satisfied to give religious instruction and enjoy religious worship in the family and in the church, while the State, with a sovereign impartiality, shall perform its great duty of making education universal through the best system of common schools the world ever saw.

After the adjournment of the meeting at City Hall, the crowd proceeded to the residence of Mr. Blaine, who was received with most intense manifestations of favor. He addressed the assemblage as follows:

Fellow Republicans: The condition of my health forbids that I should address you at length, and I fear my voice may fail to reach any considerable portion of the large crowd to whom I am so much indebted for the compliment of this call. Let me say in brief that I heartily join with you in ratifying the nominations of Hayes and Wheeler. I know both candidates, and have known them long. They are true and tried, honest and competent, strong and popular. I do not believe it was possible for the National Convention to present a more acceptable ticket to the great mass of American voters, and have no doubt of its triumphant election in November. To that great result your efforts and mine will, I am sure, be devoted with most earnest zeal. If I may be permitted to refer to the connection of my own name with the Republican nomination, let me say, gentlemen, that I look back upon it with pride and satisfaction—with not one tinge of regret at the final result. I owe much to the true friends who so faithfully supported me, and I am sure that I do not entertain the slightest feeling of unkindness towards those who opposed me. I hope I can go further, and say that out of all the fierce conflicts of the past half year I do not at this moment cherish a trace of ill-will or uncharitable feeling towards any political rival or any particular opponent. Let us look forward hopefully to the future for the peace and prosperity of the American people wisely guarded by a Republican administration of the Government, which shall be just to all sections and all citizens of our own common country. Thanking you again, gentlemen, for the honor of your call, I bid you a cordial good night.

DEMONSTRATION IN ST. LOUIS.

ST. LOUIS, June 19.—The Republicans had a monster ratification meeting at Lucas Market space to-night. The space was literally packed with crowds that could not have numbered less than 5,000 or 6,000. Speeches were made by ex-Senator J. B. Henderson and D. T. Jewell, ex-Congressman George A. Finkelnberg, District Attorney Dyer, Postmaster Filley, and several gentlemen from interior counties, and Mr. Clendin, of Arkansas, all of whom heartily indorse the Cincinnati nominees, and predicted their election in November. Mr. Finkelnberg, who for a long time past has acted with the Liberals, said the Republican party has given us a ticket which deserves the cordial support of every Republican in the country, and the platform is broad enough for every patriot in the land to stand upon. He heartily indorsed them both, and felt sure of their triumph at the polls. Mr. Henderson said he was personally acquainted with Hayes and Wheeler, knew them to be true, able men, and representatives of the highest Republican principles. He should support them cordially, and believed their triumph was certain. Colonel Dyer, who was a strong Bristow man before the nomination, accepted the nominees most cordially, and should labor for their election. He believes if they would be elected that their administration of the Government would be pure and able. Mr. Filley said the action of the Cincinnati Convention means the unity of the Republican party, and unity means victory. It was expected that General Schurz would be present and speak, but General Shields, the Chairman of the meeting, stated that the General was called East from Cincinnati. He would soon be heard in support of the ticket. The spirit of the meeting was fair but not enthusiastic. The pyrotechnic display was very beautiful, and the whole passed off with considerable *eclat*.

RATIFICATION MEETING IN INDIANAPOLIS.

INDIANAPOLIS, IND., June 19.—The Republicans ratified the Cincinnati nominations by a mass meeting at the Academy of Music, at which Governor Baker presided. Speeches were made by Generals Coburn, Kimball, Harrison, Hons. J. W. Corden, D. E. Williamson, A. G. Porter and others.

SAN FRANCISCO.

Outrage on Chinamen by an Anti-Coolie League—Sad Case of Suicide.

SAN FRANCISCO, June 19.—A dispatch from Tuckee says: Last night a number of men supposed to belong to the Circassian League, set fire to a Chinese cabin, occupied by three Chinamen, about a mile north of this place. As the Chinamen ran out of the cabin they were fired upon by the mob, one being killed instantly, and another seriously wounded. About forty shots are reported to have been fired.

O'Leary began his 500 mile walk against four amateurs last night at twelve.

Cunningham Watts, son of William Watts, dry goods merchant, Nos. 58 and 60 Second street, New York, committed suicide, last night, on board the ship Mary Whitridge, lying at Greenwich dock, by taking laudanum.

The following letter, to his mother, addressed to "Mrs. William Watts, No. 112 East Sixteenth street," was found in his state room:

SAN FRANCISCO, June 18, 1876.—DEAR MOTHER: When this reaches you I shall be dead. You know well why it must be, so that I will not even try to explain. My darling mother, my heart is breaking. Good-by.

[Signed] CUNNINGHAM.

Young Watts had been away from his home several months, having made the journey *via* Cape Horn to this port, and subsequently from San Francisco to China and return. He returned only a few days ago very much depressed in spirits.

HAYES CLUB FORMED IN EAST LIVERPOOL.

Special Dispatch to the Commercial.

EAST LIVERPOOL, O., June 19, 1876.

An enthusiastic Republican meeting was held here on Saturday evening last, to ratify the nomination of Hayes and Wheeler. The brass bands paraded the streets, cannon were fired, bonfires kindled and patriotic speeches were made. A large Hayes club was organized.

Destruction of Crops by the Flood in Tennessee.

KNOXVILLE, TENN., June 19.—Almost the entire crop on the French and Broad rivers has been destroyed by a recent freshet. There was a twenty feet rise up to midnight last night, but it is falling rapidly this morning. The fields and islands are entirely submerged from five to ten feet. Some of the farmers will replant corn. Below Knoxville the farmers will lose about one-fourth of their crops. Very slight damage on Holstein river.

XLIV. CONGRESS.

FIRST SESSION.

WASHINGTON, D. C., June 19, 1876.

SENATE.

The Senate insisted upon its amendments to the Postoffice Appropriation bill, and agreed to the conference asked for by the House of Representatives. Messrs. West, Hamlin and Davis were appointed members of the committee on the part of the Senate.

Legislative business was then suspended, and the Senate resumed consideration of the articles of impeachment against Belknap.

Mr. INGALLS asked the opinions of the managers as to the authority of the Senate to sit for trial during the recess.

Manager LORD said the managers were divided on this point, although he himself thought the Senate possessed such authority.

The Senate then went into secret session on the question of postponing the trial till November.

After the doors were closed Mr. HOWE moved to reconsider the vote by which it was ordered that they be closed. Rejected, yeas 19, nays 24.

The question then being on the motion submitted on Saturday to postpone the trial until some convenient date in the month of November next, Mr. THURMAN moved that the application of the respondent for postponement of the trial be overruled. Agreed to.

On motion of Mr. EDMUNDS, the Senate, sitting as a Court of Impeachment, then proceeded to consider the question of filing the paper read on Friday last by Judge Black, of counsel for the defense, as signing the reasons why the defendant declines to further answer the articles of impeachment as required by order of the Senate, adopted on the 16th inst., which paper Judge Black requested to have placed on file.

Mr. SHERMAN submitted the following for consideration:

Ordered, That the paper presented by defendant on the 16th inst. be filed in this cause, and defendant having failed to answer to merits within the ten days allowed by order of the Senate of the 6th inst., the trial shall proceed on the 6th of July next, as upon a plea of not guilty.

Mr. THURMAN moved to amend by inserting the word "not" after the word "be," so as to read "be not filed," &c. Rejected—yeas 24, nays 24.

The question recurring on the order of Mr. Sherman, Mr. HOWE demanded a division of the order, and the question being on the first clause thereof, viz: "Ordered, that the paper presented by defendant on the 16th inst. be filed in this cause." It was decided in the affirmative—yeas 26, nays 24.

The question then recurring on the last clause of the order of Mr. Sherman, as follows: "And defendant having failed to answer to merits within the ten days allowed by order of the Senate of the 6th inst., the trial shall proceed on the 6th of July next as upon a plea of not guilty."

Mr. ALLISON moved to amend the clause by striking out the 6th of July and inserting in lieu thereof the 13th of November. Rejected, yeas 9, nays 37—Those who voted in the affirmative were Messrs. Allison, Christiancy, Clayton, Jones, of Nevada, Logan, Morrill, of Maine, Wadleigh, Windom, and Wright.

Mr. MORTON moved to amend the twentieth clause of the order submitted by Mr. Sherman by inserting at the end thereof the following: "*Provided*, that impeachment can only proceed in the presence of the House of Representatives."

Mr. FRELINGHUYSEN moved an amendment by striking out the words proposed by Mr. Morton, and insert in lieu thereof the following: "While Congress is in session."

Mr. MORTON then withdrew the amendment proposed by him, and that submitted by Mr. Frelinghuysen was agreed to.

Mr. CONKLING moved to further amend the clause so as to make it read: "*Provided*, That impeachment can only proceed while Congress is in session." Agreed to.

Mr. MORTON moved to further amend the clause by adding thereto as follows: "And in presence of the House of Representatives."

After discussion Mr. THURMAN moved to lay the second clause of the order on the table. Rejected, yeas 21, nays 26.

The question recurring on the amendment of Mr. Morton, it was rejected—9 to 28.

The second clause of the order as amended by Messrs. Frelinghuysen and Conkling was then agreed to—yeas 21, nays 16.

Mr. EDMUNDS submitted the following:

Ordered, That the Secretary issue subpoenas that may be applied for by the respondent for such witnesses, to be summoned at the expense of the United States, as shall be allowed by the committee, to consist of Senators Frelinghuysen, Thurman and Christiancy, and that subpoenas for all those witnesses for the respondent shall contain a statement that the witnesses therein named to attend upon tender on behalf of the respondent of the lawful fees. Agreed to.

The doors were then reopened, and the Senate, sitting as a Court of Impeachment, adjourned until July 6.

Legislative business was resumed. Mr. WINDOM called up the Indian Appropriation bill, but before it was read, the Senate adjourned.

HOUSE OF REPRESENTATIVES.

Mr. RANDALL offered a resolution appointing Mr. Cox Speaker *pro tem.*, in the absence of the Speaker, which was adopted.

The House went into Committee of the Whole, Mr. Blackburn in the chair, on the Army Appropriation bill.

Mr. THORNBURG offered an amendment appropriating $200,000 for the construction of two military posts in the Yellowstone region, and providing that all existing military posts which shall be thus rendered unnecessary shall be abandoned. Adopted.

After completing the bill, the committee rose and reported the bill to the House. The House refused to agree to the amendment of Mr. Thornburg, which had been adopted in committee, and it was struck out. The bill then passed.

Mr. LORD, Chairman of the Impeachment managers, asked and was granted leave to withdraw the resolution which he offered on Saturday, providing that Congress should meet in November next in order to proceed with the trial of W. W. Belknap.

The House went into Committee of the Whole (Mr. Sayler in the chair) on the bill authorizing the repavement of Pennsylvania avenue, and a joint resolution providing for a commission to frame a suitable form of government for the District. After debate the committee rose and reported the bill and resolution to the House, and they passed.

The Speaker *pro tem.* appointed Messrs. Holman, Blount and Waldron a conference committee on the Postoffice Appropriation bill, and the House adjourned.

Nonsuit in the New York Canal Fraud Cases.

ALBANY, June 19.—In the canal suit of the People *vs.* W. C. Stevens, Thomas Gale and others, Judge Westbrook, of the Supreme Court, has given a decision nonsuiting the State upon two grounds: First, The action is barred by a former judgment of the Supreme Court, rendered in an action in which the same plaintiffs were parties. Second, The officers of the State Legislature thereof having, with full knowledge of the alleged unlawful combination by which the price fixed in the contract was secured, ordered and require the performance thereof, the State is in no situation to recover damages by acts which itself, through its officers and Legislature, directed and required.

An Important Decision.

CLEVELAND, June 19.—In the case of the Pennsylvania Transportation Company *vs.* the Oil Creek Railroad Company, which was tried in May last in the Common Pleas of Crawford county, Pennsylvania, and resulted in a verdict for $197,285, in favor of the plaintiff, the question was raised as to whether the contract sued upon was within the powers of the contracting parties, which point was reserved by the court for future adjudication. To-day Hon. W. H. Lowrie, the presiding Judge, read an opinion wherein he affirmed the validity and legality of the contract, and directed final judgment to be entered for the plaintiff for the full amount of the verdict.

The Impeachment Trial to Proceed.

The Senate, by an overwhelming majority, having concluded to proceed with the Belknap impeachment trial on July 6th, and that the House will have to remain in session pending the trial, indicates also that the Senate has determined to sit the dead lock on the appropriations out. The declaration of the counsel for the respondent that some two hundred witnesses will be summoned will be materially modified by the action of the Senate constituting a committee of three to determine what witnesses shall be summoned.

Judge Kelley Will Support the Ticket.

Judge Kelley says that he will support the Hayes and Wheeler ticket, as the financial plank in the platform is in accord with his view of the true financial policy of the country.

The Ratification Meeting.

The Hayes and Wheeler ratification meeting to-night was a magnificent success. The grand stand was beautifully decorated. The speeches, music and fireworks were excellent. The greatest enthusiasm prevailed.

Secretary Cameron at Home.

Secretary Cameron, with his daughter, to-day occupied the fine mansion owned by General Meigs, and until recently the residence of Attorney General Pierrepont. The new Secretary will here be able to dispense a princely hospitality.

Internal Revenue Changes.

The Bureau of Internal Revenue is now engaged in perfecting their arrangements to carry on the work of detecting and punishing fraud by means of their agents, who, after the passage of the Appropriation bill now pending in the Senate, will supplant that expensive class of officers known as Supervisors of Internal Revenue. At present there are seven of these officers in the service with headquarters at Boston, San Francisco, Springfield, Illinois; St. Louis, Indianapolis, Atlanta and Louisville. There also exist three vacancies, which will not be filled, those at New York, Philadelphia, and Keokuk, Iowa. It is now proposed by the Commissioner of Internal Revenue to thoroughly reorganize the corps of revenue agents, of whom there are twenty-five now on the rolls, and will divide the entire area of the country into districts. Each district will be assigned to one or more designated agents according to the importance of the district or some special circumstance which may temporarily require an increased force. It is proposed, however, to make the corps itinerant. As the efficiency of the service may require, they will be transferred from one district to another, and will be under the close surveillance of the proper officers of the Bureau. The Commissioner states that while the work can be accomplished by the force of agents now employed that he will recommend a slight increase in the number, as he will actually need a few more in order to enable him to carry out some of the details which will fall upon the corps. In point of economy the abolition of the Supervisors will be a great advantage, and will vastly increase the efficiency of the service. According to the books of the Bureau of Internal Revenue the Supervisors were maintained at an aggregate cost of $140,000 per annum, or an average cost of $14,000. Their expenses were exorbitant, particularly when compared with the amount of use they were. The twenty-five special agents of the bureau for salary and expenses cost but $85,000 a year. In order to give the agents effectiveness the Commissioner will ask Congress to increase their powers, so as to act in their own discretion under certain contingencies; also, to give them the power to summon and to enter houses and examine papers. For the present Mr. Livingston will remain at Pittsburgh.

The Geneva Awards.

The total amount of judgments paid by the Treasury Department made under the awards of the Court of Commissioners of the Alabama Claims, is six and one half million. There are yet about eight hundred judgments, which will aggregate nearly as much more, leaving a balance of about three millions unexpended. The interest and premium on the coin principal will about meet the expenses of the court, which, it is intimated, will be very large. The court consists of five commissioners, at six thousand dollars each for compensation a year, a counsel at eight thousand dollars a year, a clerk at three thousand five hundred dollars a year, and a stenographer at twenty-five hundred a year, making an aggregate of forty-four thousand dollars for salaries alone. In addition the Judges are allowed their expenses, and to this are the expenses of the court, and further, the expenses incident to the trial of the cases and taking of testimony. The proposition to extend the court for another year is characterized by those familiar with the affairs of the court as inexcusable, as the business is now about settled, and six months would be more than time sufficient to wind up the whole business. It is evident, however, that it is the settled design of our Government to absorb the balance of the fund in some way. The English lay claim to the unexpended balance, and from present appearances our Government is determined to arrange some way to prevent them getting it.

Counterfeit Trade-Marks.

The Senate Committee on the Judiciary have practically completed the consideration of the bill to punish the counterfeiting of trade-mark goods and the sale or dealing in of counterfeit trade-mark goods, and expect to be able to report next week. The bill is one of great importance to inventors and manufacturers. It punishes persons having in possession or dealing in any manner whatever in goods of substantially the same descriptive properties as those referred to in the registration of any trade-mark pursuant to the statutes of the United States to which, or to the package in which they are put up, is fraudulently affixed said trade mark calculated to deceive the public, knowing the same to be counterfeit, or not the genuine goods referred to in the registration. In addition to imprisonment, the guilty party is also made liable to the aggrieved owner of the trade-mark in the penal sum of one thousand dollars. Any one fraudulently affixing a legal trade-mark or fraudulently fills or causes to be filled, or shall knowingly or wilfully engrave or manufacture, and buy, sell, or deal in any false representation of any registered trade mark, he shall be punished as above provided. All goods substantially the same descriptive properties as those referred to in the registration of any duly registered trade-mark, but which are counterfeit and which are fraudulently put up, must upon satisfactory proof be forfeited to the United States. If the owner of a trade-mark duly registered or his agent upon oath in writing that he believes that certain premises are used for the storage, sale or manufacture of counterfeit goods, if substantially the same descriptive properties as those referred to in the registration of such trade-marks, the Judges of the Circuit and District Courts of the United States and Commissioners of the Circuit Courts may, within their respective jurisdictions, proceed under the law relating to search warrants, which, if declared fully to relate to the purposes of the act, and may issue a search warrant authorizing and directing the Marshal of the United States for the proper district to search the premises, to seize and safely to keep the alleged counterfeit goods. To abide the event of any action against the same by the United States, any one participating in the fraud is declared amenable the same as the principal. The registry of a trade-mark, pursuant to the statutes of the United States, is by the act to be deemed to impart notice to all the persons of the contents thereof. It is a matter of almost daily occurrence for persons to examine the patented compounds in the Patent Office from which any person can gain the component parts of the same. A more rigid government of this branch is also necessitated for injury thus done.

A Guess as to Cabinet Changes.

It is intimated that Secretary of War Cameron will be made Secretary of the Treasury, and General S. A. Hurlbut, a Representative from Illinois, Secretary of War.

Democrats to Step Down and Out.

The departure of Secretary Bristow from the Treasury will, in all probability, relieve that department of a regiment of Democrats, many of whom owe their appointments to him.

WASHINGTON, D. C., June 19, 1876.

POSTAL CHANGES.

Postoffice changes in Pennsylvania for week ending June 17, are announced:—

Established—Borard, Butler county, John F. Hall, Postmaster; Brillhart, York county, J. M. Glatfeiter, Postmaster.

Names Changed—Allewood, Union county, to Cario; Susquehanna, Dauphin county, to Fort Hunter.

Postmasters appointed.—Ziba S. Strunk, Lime Hill, Bradford county; Henry R. Shearer, Shade Gap, Huntingdon county.

FURTHER CHANGES IN THE TREASURY DEPARTMENT.

Mr. Wilson, Chief Clerk of the Treasury Department, to-day tendered his resignation, to take effect on the 1st of July. For a long time it has been known that Mr. New, Treasurer, has remained in his position at the request of Mr. Bristow and others, and there is now good reason to assert that he will certainly resign by the end of the present fiscal year.

The correspondence between Mr. Bristow and the President, on the occasion of Bristow's resignation, has not been given to the press for publication. The formal reply of the President to the Secretary's letter of Saturday was written to-day. The correspondence, it is understood, is brief, and contains the usual formal expressions in communications of this character, Mr. Bristow saying in his letter that he hereby tendered his resignation to take effect on the 20th inst., and thanked the President for the honor of appointment he conferred upon him, also stating his desire to give attention to private affairs. The President accepts the resignation with the hope that in his retirement from public office the Secretary will find the rest which he could not have in his present position, and desiring that the personal relations between them shall remain in their present pleasant attitude.

A DENIAL FROM THE GERMAN MINISTER.

The German Minister here says that the report telegraphed from London that he has charged some members of the German Commission to the Philadelphia Exhibition with corrupt practices and requested their removal, is entirely without foundation; that he has made no such charges; that there have been no corrupt practices, and he has not asked for the removal of any of them.

POSSIBLE POSTPONEMENT OF THE IMPEACHMENT TRIAL.

Notwithstanding the vote of the Senate to day against postponing the Belknap impeachment trial until November, it is the opinion of several prominent Senators that after argument shall have been heard on the paper which the respondent's counsel were to-day allowed to file, all further proceedings will forthwith be postponed to an early day in November, or until the commencement of the next session.

APPROPRIATIONS FOR PUBLIC BUILDINGS.

The House Committee on Appropriations will to-morrow report among others the following appropriations: Custom house and postoffice, Cincinnati, $200,000; custom house, court house and postoffice, Evansville, Ind., $[illegible]; court house and postoffice, Lincoln, Neb., $15,000; court house and postoffice, St. Louis, $450,000; court house and postoffice, Parkersburg, W. Va., $50,000; repair and preservation of public buildings, $100,000.

Evil Communications Corrupt Good Manners.

BATON ROUGE, June 19.—A disturbance, reported as a riot, occurred at Mount Pleasant, near Port Gibson, on Saturday. The negroes, following the examples of the whites, organized a band of regulators and ordered a Democratic negro to leave the place. Refusing to leave, he was attacked by the regulators and killed. A constable and posse attempted to arrest the murderers, but were driven off. The Sheriff of Baton Rouge, with a posse, went to Mt. Pleasant on Sunday and captured fourteen negroes, including the murderers. A party of armed negroes passed Baton Rouge on the opposite side of the river going towards Plaquemine. When they reached Brusle Landing they were disarmed by the whites. The Sheriff's posse in making the arrest at Mt. Pleasant report being fired upon by the negroes. Two of them were wounded and two horses killed.

Another "Crooked" Telegram.

NEW BRIGHTON, PA., June 19, 1876.

To the Editor of the Pittsburgh Commercial:

A dispatch appeared in the *Gazette* of Saturday morning, purporting to come from New Brighton, signed "H. J.," as follows:

"The Republicans of Beaver county look and feel about the same as they usually felt when our armies met with disaster during the war. They had so firmly fixed on the gallant Blaine for their standard bearer that even so good a man as Hayes does not enthuse them. We are sick."

As the operator here has no knowledge of such a dispatch being sent, it must be a fraud. There is no such feeling in Beaver county. We are for the splendid ticket nominated, and will give it our usual majority. D. C.

A CUP OF TEA.

The First Japan Garden Grown Consignment of the Year.

Our enterprising fellow citizen, D. M. Jenkins, Esq., of the famous "Old Tea House," Fifth avenue, is certainly the "Autocrat of the Breakfast Table" in this community, so far as "the cup that cheers but not inebriates" is concerned. He has just received a rare consignment of the new crop garden grown Japan teas, the first to arrive in this country this season. The tea was shipped at Yokohama on May 11th and arrived in San Francisco on the 29th of the same month. It was received in New York on the 15th of June, Thursday last, and was in Mr. Jenkins' establishment on Friday, the 16th, having been shipped here by express. The plants from which this tea is grown are started in hot-houses, and are afterwards transplanted to gardens prepared with the utmost care, so that the plant not only arrives at maturity much earlier than the common Japan tea plant, but is of a much finer quality, as well. According to the written testimony of the New York experts whose special business it is to test and appraise teas, the consignment is by long odds the best that has reached this country the present year; and Mr. Jenkins, who possesses the true Darwinian instinct as respects questions of the fittest, had his pick of the lot. To the excellence of his eclectic faculty in this particular we can bear positive experimental testimony. The exquisitely delicious flavor of this tea actually gives memory to the palate, and dwells there as, in literature and art, the remembrance of a beautiful picture or poem dwells in the mind and leads imagination captive. Enterprise such as this has an æsthetic, as well as commercial side to it, and hence should, as it will be, doubly rewarded.

The Temperance Alliance.

A regular meeting of the Temperance Alliance was held yesterday afternoon, Mr. Thomas H. Rabe in the chair.

Mrs. Youngson gave a short history of the doings of the Women's National Temperance Convention recently held in Philadelphia.

Resolutions of regret on the death of Joseph H. Turner, heretofore an active member of the Alliance, were presented and adopted.

Mr. Dewitt was authorized to carry out his motion that a barrel of ice water be placed at the door of the Alliance Rooms, so as to militate against the saloon next door.

Mrs. Gormley thought it would be a better plan to put the water near church doors, so as to keep thirsty church members from stopping at drug stores. She also thought the saloon keeper in question might poison the ice water with cayenne pepper or something.

After the transaction of business, not of public importance, the Alliance adjourned.

A CROOKED TELEGRAM.

The Celebrated Caldwell Dispatch in the Blaine Case Said to Have been Home-Made—Will James G. Please Rise and Explain?

PHILADELPHIA, June 19.—A Washington dispatch to the *Evening Telegraph* says: "It can be stated on unquestionable authority that the cable telegram purporting to have been sent by Mr. Caldwell, from London, was never sent by him, although it was actually sent from London with his name as the signature. It is not certain that the thing started from New York, but it is pretty certain that it passed over the wires from New York, having been started from that city or from some point between New York and Washington, either Baltimore or Philadelphia. It was embraced in a cable telegram sent from the starting point on this side of the Atlantic to an assumed address in London which had been agreed upon previously, probably through the agency of the cable, and the exact words were then sent back to this country by the confederate in London in pursuance of the instructions he had received.

WASHINGTON, D. C., June 19.—The following dispatches were produced to-day before the Committee on Judiciary by Mr. Hicks, cable clerk of the New York Western Union Telegraph office. The first dispatch is from A. P. Robinson, former Chief Engineer of the Fort Smith and Little Rock road, and is as follows:

WASHINGTON, D. C., May 25.—*To Josiah Caldwell, 115 Cannon street, London, England:* See Scott's testimony in papers 16th. Telegraph Scott, Philadelphia, as you truthfully can, the strongest indorsement of his statement.

A. P. ROBINSON.

TELEGRAM NO. 2.

JUNE 1, 1876.—*Josiah Caldwell, Tunbridge Wells, England:* Don't permit newspaper men and others to interview you.

TELEGRAM NO. 3.

June 7, 1876.—*Josiah Caldwell, Tunbridge Wells, London:* If false authorize me to deny you paid Blaine. SICKLES, St. James Hotel, care of Mr. Denickla.

The above dispatch brought out Caldwell's reply to Sickles.

TELEGRAM NO. 4.

[Received at Western Union Building, Broadway and Dey streets, May 31, 1876.]

Josiah Caldwell, Cannon street, London: Thanks for your cable confirming all my statements.—SCOTT.

TELEGRAM NO. 5.

[Received at Western Union Building, Broadway and Dey streets, May 21, 1876.]

Favo, London: Dispatch received. Cable this immediately to Chairman House Judiciary Committee, Washington: "Have just read Scott's evidence about our bond transaction in New York papers, and fully corroborate it. I never gave Blaine any Little Rock bonds directly or otherwise. Am now building three European railroads, and cannot leave without great pecuniary loss, or would gladly voluntarily come home and testify. Can make affidavit to that effect to mail it if desired. [Not signed.]

TELEGRAM NO. 6.

[Received at Western Union Building, Broadway and Dey streets, May 30, 1876.]

Favo, London: Cable nobody excepting Scott.

The testimony of Hicks was mainly in explanation of the operators' marks on the above dispatches produced by him. The only important point in it was that the word "Favo" was the registered address of Josiah Caldwell in London. He knew it from the fact that the office was so notified by an office dispatch from the other side. He could not give the date of that notification, but he thought it was somewhere about the 24th of May last.

WASHINGTON, D. C., June 19.—Mr. Blaine received by mail of this morning a letter from Josiah Caldwell, of which the following is a copy. It authenticates the cablegram received by the Judiciary Committee:

No. 115 CANNON ST., LONDON, E. C.,
June 8th 1876.

HON. J. G. BLAINE—*Dear Sir:* I read in the New York papers of the 16th ult. Colonel Scott's evidence before the Congressional Committee, and I at once cabled him as follows: "Thos. A. Scott, Philadelphia: Your statement before the Congressional Committee on the 15th, relating to the Ft. Smith railway bonds which you purchased of me, is perfectly correct. I can more fully substantiate if necessary."

I have also cabled the Chairman of the Judiciary Committee as follows: "Have just read in the New York papers Scott's evidence about our bond transactions, and can fully corroborate it. I never gave Blaine any Fort Smith Railroad bonds, directly or otherwise. I have three foreign railway contracts upon my hands, which makes it impossible for me to leave without great pecuniary loss, or I would gladly voluntarily come home and so testify. Can make affidavit to this effect and mail if desired."

I am sorry that I am not able to go personally before the committee and give my testimony, but I presume that Colonel Scott's evidence will be sufficient to prove that you had nothing to do with the transaction in question. If you wish for any further testimony or affidavit from me to prove the facts as cabled to the committee, I shall be glad to forward it under oath. The charges are so void of foundation that I have no fear of their doing any permanent injury, and I hope your persecutors will be able to show as clear a record as yours in connection with the Little Rock and Ft. Smith Railway.

Yours, faithfully,
JOSIAH CALDWELL.

Pat Hester struck Martin Kennedy on the head with a stick of wood on Sunday night, at Little Rock, from the effects of which the latter died. Both were railroad employees.

TUESDAY, JUNE 20, 1876.

W. R. MILLER is the Democratic candidate for Governor of Arkansas. He is an ex-Confederate, of course.

THE Ninth Annual Congress of the United States Law Association will convene at Philadelphia to-day.

THE hard money New York *World*, and the rag-baby Cincinnati *Enquirer*, both show symptoms of softening of the spine.

GRATZ BROWN says of HAYES: "That is a magnificent nomination, and the Liberal element of Missouri will give HAYES a hearty support."

WE REGRET to observe that the *Post* is not pleased with the Republican National platform; and yet it does not seem to feel itself equal to the task of knocking it to pieces.

HAYES is in his fifty-fourth year, and in the very prime of life. He is old enough to have a matured judgment, and young enough to make a vigorous and efficient President.

"HOLD fast to the Bible as the sheet anchor of your liberties," is President GRANT'S Centennial advice to the Sunday school children of the country, and the *Post* sneers at it.

THE total value of foreign exports from Boston last month was the largest in the history of the port, being $3,903,812, against $2,619,587 last year and $2,023,261 for the corresponding month in 1874.

HAYES has had the supreme felicity of defeating, for Governor, three Democratic candidates for President—PENDLETON, THURMAN and ALLEN. If able to beat these fellows, in detail, he can assuredly defeat any one whom they can trot out at St. Louis.

ENGLAND has also released BRENT, the Louisville forger. He was discharged yesterday. The extradition treaty is dead, and criminals of both nations will now be free to find an asylum under the flag of the other, when they leave their country for their country's good.

CONGRESSMAN HEREFORD, of West Virginia, who reported the River and Harbor bill, which appropriated nearly half a million dollars for improving the dry creeks of that State, boats of the great "economy" which his party has practised. Congressman HEREFORD would shine as the commander of a mud scow.

COMPLETE organization among Republicans is what is now wanted to secure a grand victory next November. The Democrats everywhere are visibly disappointed and alarmed at the action of the Cincinnati Convention. It has healed dissension, conciliated the disaffected, and gathered in the independents. Now let the compact phalanx move forward.

THE Chairman of the National Republican Committee, ex Governor E. D. MORGAN, of New York, never made a speech in public till he was past middle age. He educated himself by hard labor, after going through a close business career. Nature, however, endowed him with great powers, and he would have excelled in almost any profession.

THE Rochester *Democrat* is right. The question of the Presidency is not necessarily a foregone conclusion. The nominees being now before the people, the active work of the canvass should be at once begun. The warfare is to be a terribly earnest one. We must win, but victory will be gained only after the most vigorous and persistent work. Clear the decks for action.

THE National Board of Trade, which meets in a few days, is asked to give its influence to bring about "the establishment of art and science schools in all the States of the Union, where workingmen and their children may receive such technical instruction as may improve and create skilled labor." Whether skilled labor can be "created" by any amount of teaching when the boys are shut out of opportunities to practice is a question; for it is well known that skill at anything is only gained by much practice.

THE whisky prosecutions in Chicago are closed, except that a number of rascals who pleaded guilty have not yet been sentenced. There is no means of arriving even approximately at the gross amount of which the Government was defrauded during the several years covered by the indictments, but, according to the Chicago *Tribune*, the property traced by means of warehouse receipts, bills of lading, books that were seized, etc., would indicate that the government was robbed of between $1,500,000 and $2,000,000.

IT IS gratifying to have from the Northwest almost every day now such sanguine assurances as these, from the Chicago *Tribune* trade article of Saturday:

> "The counter transactions of the banks indicate more activity in general business and on the Board of Trade. The retail trade of the city has been undeniably improved in the last ten days. The croaking and despondent predictions that were general a few months ago are no longer heard. The most conservative and hard headed among our bankers and business men freely express their belief that the hard times are virtually over, and that a wide improvement in business will follow the quiet of the summer months."

THERE has seldom been as great difficulty in ascertaining the precise truth as to anything as to the state of Mr. BLAINE'S health and his exact physical condition three days before the assembling of the National Convention. Possibly the reason of this may be found in the words of one of BLAINE'S physicians to a friend: "We have but two days to get him up, and we ought at least to have twenty." Politics and not the highest science sat at his bedside. He is by no means a well man, yet, and it is said that he will be unable to appear in his own defense in the Judiciary Committee rooms next Monday, to receive the charge of "the MULLIGAN guards."

A GLANCE at our political history discloses the fact that the Government has been through twenty-two Presidential terms, and that the nominations have been made the first half by Congressional caucuses and the last half by National Conventions. The half way point was 1832, when the first Convention met at Baltimore, nominating JACKSON for the second term. "Old Hickory" was so much pleased with this method that he recommended its continuance, which has been maintained by all parties. Baltimore continued the center until the Whigs in 1839 selected Harrisburg as the spot for a grand national council, which was held in December. Never before or since has a convention been earlier in point of time, the candidates being before the people eleven months previous to the election.

HERE are a dozen good reasons from the Jersey City *Journal* why the Republican party should be preferred to Democracy. A hundred reasons, equally as good, could readily be given:

1. It represents the intelligence and loyalty of the nation.
2. It is the champion of free education, and an advocate of the rights of labor.
3. It preserved the republic in face of the greatest rebellion of modern times.
4. It restored, through its legislative wisdom, the Southern States to all their former rights and privileges in the Union.
5. It abolished slavery.
6. It made freedom universal.
7. It settled the vexed San Juan boundary question.
8. It obtained $15,000,000 from England, and settled amicably the Alabama depredation question.
9. It gave to the nation a good national banking system.
10. It has paid nearly $600,000,000 of the national debt.
11. It built the Pacific Railroad.
12. It has opened a profitable commerce with Eastern nations through favorable treaties.

THE committee of the Southern Presbyterian Assembly, just adjourned, have made this elaborate explication of a reference in a deliverance of 1864 to "the Divine appointment of domestic servitude": "By declaring the institution of slavery to be of Divine appointment, the Assembly must not be understood as expressing the opinion that it was ordained of GOD, as a positively divine and obligatory institute of society, for all communities, but simply that, as it was recognized and enforced by the law of the Confederate States, and was an existing relation prevailing throughout its boundaries, it was, in the sense of all established civil relations, a matter of Divine appointment for the time being, in the midst of the people of the States." Another expression: "It is the peculiar mission of the Southern Church to conserve the institution of slavery; and make it a blessing, both to master and slave," is explained to mean to make the best of the relation then existing, and benefit both master and slave through the Gospel.

> "And the thoughts of men are widened
> With the process of the suns."

THE action of the Appropriation Committee in usurping the functions of the House, and introducing in the Appropriation bills legislation which repeals general laws, and in some instances changes the organization of the Executive Departments, cannot be too strongly condemned. They now demand that the Senate shall concur and the President approve this illegal course upon penalty of having the wheels of Government stopped by the withholding of the necessary appropriations. The insertion of general legislation in the permanent Appropriation bills was an attempt on the part of the House to usurp the entire functions of the Legislative and Executive Departments of the Government under the specious plea of economy. It is not economy, however, but ruin. We are now within a few days of the close of the fiscal year, and some of the appropriation bills are not yet reported from the Committee on Appropriations, and unless the course recommended by the President, to the effect that Congress should authorize the unexpended balances to be applied to the use of the Government for the coming fiscal year, pending the consideration of the appropriation bills, is adopted, the Government will be paralyzed, and its credit at home and abroad dishonored. The facts of the disagreement are as follows: Most public offices are created by law, and the salaries fixed by law. All appropriation bills, by the Constitution, must originate in the House. But an appropriation bill cannot properly repeal, alter or disregard existing laws. The House, however, has not made its appropriations in accordance with the laws. The House Appropriation bills undertake to abolish some offices which are established by law, and to cut down salaries which are fixed by law, whereas the only way to abolish an office which is established by law is to repeal the law establishing it. And the only proper way to cut down a salary fixed by law is to alter the law fixing the salary. The House is legally bound to make its appropriations in accordance with law. The latter body has no more right than the Senate, and the Senate has just as much right as the House, to originate bills creating offices, or abolishing offices, or fixing, repealing, or changing salaries. The House attempts to usurp powers which do not belong to it in taking its present position. The Senate has amended the House Appropriation bills, as the Constitution says the Senate may, to make them conform to the law. The Senate says that, if the House desires to abolish offices, or to cut down salaries, let it pass a separate bill for that purpose, and the Senate will consider and treat it fairly. But, as long as the law remains as it is, the appropriations must accord with the law. It is the evident purpose of the Democrats to force a dead-lock, and thus stop the entire machinery of the Government, and the country will know where to place the responsibility.

ONE of the most ignoble features of the day is the raid upon STEWART'S estate, organized by those who claim to be his relatives. No doubt these worthy people feel aggrieved by being left out in the cold and not remembered in his will, but it is something that happens every day. They have no serious cause of complaint. Their relations to the rich man in his lifetime were not such as to give them any well grounded expectation of being benefited by his death. Yet the prize is an immense one—for the lawyers. Few people seriously anticipate any injury to the estate, or any division of it. Possession is nine points of the law in this case, and Judge HILTON sits serene in the dead merchant's chair and defies the aggressors. This attack, however, seems to have one curious effect: donations by Mrs. STEWART and Judge HILTON to charitable objects are announced at the same moment the hearing in the will case is being heard in the Surrogate's Court. Mrs. STEWART has given $2,000 to the New York Eye and Ear Infirmary, and $1,000 to the State Prison Association. Judge HILTON has also sent $100 to the Seaside Sanatorium for sick children. If the attack on the will has these results, the New York charities will be the gainers, and that will be a blessing, anyhow. People are still curious to see how the widow and executor will carry out the dead merchant's idea of charity—as indicated in the letter to his wife accompanying his will.

THE great importance of the independent vote in the ensuing Presidential election may be inferred from the fact that of the six most populous States of the Union, New York, Pennsylvania, Ohio, Illinois, Indiana and Missouri, all but the one last named count among their citizens a sufficient number of independent, or politically uncertain voters to control the result of the Presidential contest, not only in these States, but in the Union. The Republicans have now nothing to fear from this class of voters. The New York *Times* presents statistics showing that last year the average Democratic majority in New York was fifteen thousand; that in our own State Governor HARTRANFT'S majority was only two per cent. of the whole vote cast; that in Ohio the majority cast against Governor ALLEN last year was only 6,544, and that Indiana two years ago went Democratic by more than seventeen thousand. It became, then, a duty of the first importance for the Cincinnati Convention to take no risks whatever, but to nominate a strong ticket, sure to command the respect and support of that large body of intelligent citizens to whom we have referred. This has been done, and, supplemented with hard work, it makes certain a victory such as the best days of the Republicans have not before seen. Union is the watchword, honesty and integrity the guiding principles, and as standard bearers, every Liberal Republican in the country will be earnest, unflagging and devoted in the support of the ticket.

They have been having a sensational crookedness at Havana. A certain collector of taxes recently left Cuba for the United States, bringing with him $400,000 in Spanish gold. At the request of the Captain-General of Cuba, detectives were put upon his track with orders to arrest. But there is no extradition between us and Spain, so that the fugitive can not be touched by arrest until he is found upon Spanish ground, which will hardly be likely to occur during the present century.

The original "Uncle Tom," Josiah Henson, the hero of Mrs. Stowe's celebrated story, attended the recent conference of the M. E. He was sent to Kentucky and sold and resold, and one master, when drunk, broke both of his shoulders and his arms. When he was separated from his family and sent to New Orleans, in 1830, he escaped, found his family 250 miles south of Louisville, and traveled to Canada with two of his children on his back, through many perils. He has forty-four grandchildren and six great grandchildren.

A novel locomotive has been made in California to run on the long flumes that are used to flow lumber down from the mountains. The wheels go on the edge of the sides of the flumes, and at the ends of the car are paddled wheels dipping into the water, and which are turned by the swift current. By a simple arrangement this power is made to propel the locomotive up the flume, and it runs back itself.

PENNSYLVANIA OIL REGIONS.

Stagnation in the Market—Discouraging Results of Test Ventures—New Producing Wells—Extension of the Narrow-Gauge.

Special Correspondence of Pittsburgh Commercial.
PARKER CITY, June 15, 1876.

The existing stagnation in the oil market certainly does not result from any heavy surplus in stocks or excessive production, present or prospective. While a larger number of new wells came in last month than before, their production added only a few hundred barrels to the daily average yield of the month previous. The moderate yield of the new wells, which have been generally distributed throughout the producing sections, has largely stimulated all branches of business, while affording employment for more operatives. As a result, business generally in all sections of the oil regions is better than it has been for a long time previous.

There have been some discouraging results in test ventures which, serving to define more precisely the limits of productive territory, have caused producers, having rigs built in their proximity to postpone operations until a more convenient season, and in some instances to abandon projected developments.

In the vicinity of the Bird well, on the Barnhart farm, which attracted so much attention at the time it was struck, a large number of new rigs were built. Their owners watched with interest the striking of a new well on this property, the Bird No. 3, which is located within thirty rods of its predecessor. It is through the sand, the quality of which was poor, considerable of salt water, and the indications are anything but favorable for other than a small producer. As a natural consequence, drilling will be postponed in several localities in this vicinity, where rigs have been built with the intention of pushing matters rapidly, had the recent Bird strike proved anything like as prolific as its two predecessors.

The Painter well, on the Knouse farm, near Great Belt City, to which allusion was made in the special correspondence of the COMMERCIAL of the 10th inst., has not yet reached the sand, if the theory is correct that the stratum passed through was only the boulder, and which had no indications of oil. The owners of the well, however, have not lost confidence in the venture, and are still drilling in expectation of striking the oil-bearing rock.

On the Wicks farm the Stahl & Avery well reached the sand on Friday with indications anything but favorable for a large yield. It is located about a hundred rods from the Bird well No. 2, and it has given evidence thus far of proving rather a small well. The result of this strike has been to still further dampen the ardor of those operators who have erected rigs in the vicinity, in the expectation of drilling should the latest Bird strike have proved a successful venture.

On the same day the new Harrington well, on the Levi Gibson farm, struck the sand. The well has been tubed, but its present yield does not show favorably for its making any large addition to stocks.

On the Thompson farm, the new Woods & Ripley well is a very respectable strike. It is producing, at present, in the neighborhood of fifty barrels a day.

The new Overy well, on the Easterling farm, is producing between fifteen and twenty barrels a day.

On the Wicks farm the Stahl & Avery new well is doing in the neighborhood of ten barrels daily.

The new Christie & Cameron well, on the Washington Campbell farm, is producing about twenty barrels a day.

On the William Crawford farm, Hunter & Cummings' latest strike, which was expected to have been a large producer, from the place of its location, is doing about fifteen barrels a day.

The Hazelwood Oil Company are starting two new wells on the McKinney farm, encouraged by the fact that their two latest strikes on this property are still yielding daily about forty barrels per well.

Work on the extension of the Parker and Karns City Railroad is progressing satisfactorily, and the business of Millerstown and other important points beyond Karns City will be much improved when the road is in running order.

The amount of travel over the handsome bridge which spans the Allegheny river at this point has worn the roadway considerably and the company are to replank it at once.

The Presbyterian church building is to be raised, and a basement built under it for a lecture room and use of the Sabbath school. The increasing numbers in attendance require this addition for their proper accommodation.

No steps have yet been taken for a formal celebration of the Fourth of July at this place; but if the citizens undertake to celebrate, they will do so in a manner that will do credit to the place. DOT.

Letter from Bradford—The Late Destructive Fire—A Month's Production Consumed—Gossip About New Wells—Business Lively—Liquor Licenses.

Special Correspondence of Pittsburgh Commercial.
BRADFORD, MCKEAN COUNTY, June 17, 1876.

It appears to be the destiny of all oil towns to suffer from a visitation of the fire fiend sooner or later, and the staple production of the oil regions affords the best possible material for an extensive conflagration.

Bradford, not to be outdone by producing sections of more notoriety, was the scene of an extensive oil fire, on Tuesday afternoon, which, while wiping out in a few hours the production of this entire section for about a month, entailed heavy losses on the owners of the property consumed, and threatened still more serious disaster.

Between one and two o'clock, during a thunder shower, the electric fluid struck the rig of the Olmstead well, on the Sanford farm, while the tubing was being withdrawn, it being the intention of the owners to explode a torpedo in the well. Singularly enough, some of the men in the derrick at the time were injured by the stroke of lightning, but the current discharged into the adjacent tank, containing about two hundred barrels of oil, and ignited the contents.

The rig of the well was soon in flames, and the fire spread rapidly to an iron tank in the immediate vicinity, owned by the McKean Company's Pipe Line, containing about 21,000 barrels of oil. As the burning liquid was discharged from the tank and poured down the hill side, the tanks and wells in its course became rapidly involved in the conflagration, which gained material for combustion in its devastating course. Below was a side track of the railroad, which the stream of liquid fire covered in its rapid course, setting fire to the ties as well as six oil tank cars standing on the track, three of which were loaded. One of the cars exploded after a while, throwing the dome to a considerable distance. In its descent it struck a tree, breaking off several of the limbs, one of which struck a man on the head, who was standing under it at the time.

On the opposite side of the track a small dwelling house and a store house, containing a considerable stock of lumber and shingles, belonging to Kennedy & Co., were involved in the burning mass, adding fuel to the flames. Several dwelling houses, as well as Kennedy's saw mill, seemed for a long time to be doomed to destruction.

The large tank continued burning for more than twelve hours, immense volumes of flames and dense smoke ascending heavenward, forming a sublime and terrific picture which language is too feeble to describe, when the sides fell in releasing the remaining flood of burning oil, which poured out in an impetuous stream, covering several acres in its devastating course.

The losses from the fire were in the neighborhood of $100,000. The Producers' Consolidated Land and Petroleum Company are the heaviest losers, to the extent of $75,000, with insurance for nearly half the amount.

Kennedy & Co., on store house with stock of lumber and shingles, have a loss of less than $2,000, fully insured.

The loss of the Erie Railway Company, in track, six tank, cars, etc., is about $18,000.

Beside these there were three oil wells with rigs, and tanks containing nearly a thousand barrels of oil; losses about $7,000.

In this connection it is an interesting fact that the oil fires thus far this year, caused by strokes of lightning, have consumed more crude petroleum than the entire amount of production of this district in the same period of time.

The daily average production of this district, at present, is about 800 barrels. Existing rivalry among producers has caused many of the wells to be located in such immediate vicinity as to rapidly exhaust the territory and although, from present indications, the Bradford oil field will undoubtedly prove a profitable source of investment to those producers who operate judiciously, the production of the district will not act at all injuriously on the market by any heavy additions to stocks.

Among recent strikes Emery & Cox's new well, on the Cockroft farm, is producing about forty barrels a day.

On the Storm's farm, the Knox Leckey new well is doing in the neighborhood of eight barrels daily.

The Potts well, on the Nye lot, in the borough, was tubed on Tuesday, and is doing from eight to ten barrels a day.

On the Davis lot, Kerns Brothers' new well was tubed on Wednesday, and has a daily average production of about eight barrels.

The Wilson well, on the Miller farm, is producing about ten barrels a day.

Near Tarport the Melvin Brothers' new well, on Melvin property, is at present flowing about forty barrels.

On the Bradley farm, in the vicinity of Tait property, the new Evans well is through the sand and is doing about eight barrels a day.

The Bradford Ore Company are putting down a number of test wells. One of them is located at Allegheny, about three miles west of Olean.

Business here is very lively, but there is no provision, as yet, made against fire. Some of the more enterprising of the new residents are agitating the propriety of having water works and a fire department, but meet with no encouragement from the earlier settlers.

The courts do not seem to recognize the propriety of an unlimited number of licenses to sell liquor. Many of the applicants have been refused, while some vendors have been indicted for selling without license. But others persist in furnishing the concentrated extract of corn, regardless of courts and consequences, contented to pursue their avocation regardless of anything as long as they can find customers for their stock in trade. NEW PUBLICATIONS.

THE LIFE AND LETTERS OF LORD MACAULEY. By his nephew, G. Otto Trevelyan, Member of Parliament. Published by Harper & Brothers, New York. For sale by S. A. Clarke & Co., Pittsburgh.

We have already expressed our high estimate of this really distinguished scholar when the first volume appeared, and the second only serves to heighten our opinion. His life was an eventful one in a double sense, political and literary, and in both respects he occupied a high plane. As a scholar and author, he is best and most widely known, and his memory will long be revered wherever the English language is spoken. His political career covered a momentous period, and he was associated with some of the most brilliant minds of the British Kingdom. This volume covers a period of over twenty years, commencing with his return from India, in 1838, and closing with his burial in 1859 in Westminster Abbey. It is difficult to single out any one feature of excellence in this work above the other. His letters give an inner picture of his life and writings while they also picture in his fervid mosaic style his views of authors and their writings, and also of great men. Mr. Trevelyan has woven some elegant pictures of Macauley's home life, and in fact this is true of both volumes, that he has used the rich and abundant materials at his hand, with the skill of a master mind. Macauley's writings will long be monumental of his greatness.

THE OLDEN TIME. A Monthly Publication, devoted to the Preservation of Documents and other Authentic Information in relation to the Early Explorations and Settlement and Improvement of the country around the head of the Ohio. Edited by Neville B. Craig, Esq. Originally published at Pittsburgh in 1846-47. Published by Robert Clark & Co., Cincinnati, Ohio. For sale by J. R. Weldin & Co., Pittsburgh.

Thirty years ago the late Neville B. Craig, Esq., commenced the publication of a monthly periodical, under the title of the "Olden Time," and through this medium a vast amount of historical lore was rescued from oblivion. The publication was greatly prized, but in those days it was difficult to sustain a venture of that character, and after much labor, time and cost, it was issued for two years and then suspended. Many of the subscribers have retained their bound volumes, but it has been so highly valued, and its reproduction so much desired, that his estimable daughter, Mrs. E. G. Wallingford, residing in this city, has republished the work in a more compact and attractive form than the serial one in which it was issued. This labor of love on her part, we hope will be appreciated by the numerous friends and admirers of the dead editor. Mr. Craig was peculiarly fitted for the work. Born in the Redoubt built by Colonel Bouquet in 1764, his life, extending to over seventy years, was spent within rifle-shot of the place of his birth.

The index alone will convey an idea of the richness of this collection. Among many others, the following may be enumerated: Washington's journals of 1753, 1754 and 1770; Frederick Post's journal, from Philadelphia to the Ohio, 1758; George Croghan's journal, from Fort Pitt to Vincennes and Detroit, 1765; General Richard Butler's journal, to the Falls of the Ohio, 1785; Arthur Lee's journal, to the Northwestern Indians, 1785; a large number of valuable articles relating to the Indians, including details of many conferences and treaties; numerous articles concerning Braddock's defeat, Lord Dunmore's war, the early settlement of Western Pennsylvania and the Northwestern Territory, etc., etc. Two early books are printed entire in its pages—Smith's "Account of General Bouquet's expedition against the Ohio Indians in 1764," and "A Memorial, containing a summary view of facts, with their authorities, in answer to the observations sent by the English Ministry to the Courts of Europe. Translated from the French." Though there were two editions of this latter work published, both in 1757—one in Philadelphia and one in New York—it is one of the rarest of American books (we lately sold a copy of it for $65), and is very valuable as giving the French view of the situation in the West at that time. Besides the above, the publication embraces numerous articles, giving facts of the most interesting character, from the private journals and personal reminiscences of many of those who acted prominent parts in early days, which will be of great value to the future historian of this region.

THE HISTORY OF THE ARMY OF THE CUMBERLAND; its Organization, Campaigns and Battles; written at the request of Major General George H. Thomas, chiefly from his Private Military Journal and Official and other Documents furnished by him. By Thomas B. Van Horne, U. S. A. Illustrated with twenty-two campaign and battle maps, compiled by Edward Ruger, late Superintendent Topographical Engineer Office, Headquarters Department of the Cumberland. Two volumes and atlas. Published by Robert Clarke & Co., Cincinnati, Ohio. For sale by J. R. Weldin & Co, Pittsburgh.

This well-written History of the Army of the Cumberland, at the solicitation of Major-General George H. Thomas, seems to have been prepared in accordance with his explicit instructions, "to write nothing but the truth." General Thomas in the summer of 1865, placed in the hands of the author his private military journal, containing a succinct diary of the events and operations of each day, to the close of the war. He also entrusted him with all his private papers, letters, etc., which in any way related to military matters, and furnished him with the originals or copies of all pertinent official documents, orders, telegrams, reports, and other materials necessary to make a complete and accurate history of the campaigns and battles in which this Army took so prominent a part. Upon examining some of the completed chapters of the more important campaigns and battles, General Thomas expresses his satisfaction and gratification by saying: "It will be an honest and truthful history." Great interest has been felt in the compilation of this History, and all the leading officers of that Army, as well as available sources of information, Federal and Confederate, have been brought into requisition to make the work full and reliable in every respect. Full and accurate maps have been expressly prepared, in atlas form by Captain Ruger, who had been five years Superintendent of the Topographical Engineer Office, at the headquarters of the Department of the Cumberland. Thousands of officers and privates of this army, will welcome this reliable contribution to the history of this country, and we hope the generous publishers will be amply compensated by its extensive sale. No library is complete without it.

THE GREAT
ENGLISH REMEDY!
The Cordial Balm of Syricum and Tonic Pills.

NERVOUS DEBILITY.
However obscure the cause may be which contribute to render nervous debility a disease so prevalent, affecting, as it does, nearly one-half of our adult population, it is a melancholy fact that day by day, and year by year, we witness a most frightful increase of nervous affections from the slightest neuralgia to the more grave and extreme forms of
NERVOUS PROSTRATION.
characterized by a general languor or weakness of the whole organism, especially of the nervous system, obstructing and preventing the ordinary functions of nature; hence there is a disordered state of the secretions; constipation, scanty and high-colored urine with an excess of earthy or limey sediment, indicative of waste of brain and nerve substance, frequent palpitations of the heart, loss of memory, and marked irresolution of purpose, and inability to carry into action any well defined business enterprise, or to fix the mind upon any one thing at a time. There is great sensitiveness to impress though retained but a short time, with a flickering and fluttering condition of the mental faculties, rendering an individual what is commonly called a whiffle-minded, or fickle-minded man.
This condition of the individual, distressing as it is, may, with a certainty, be cured by
THE CORDIAL BALM OF SYRICUM AND LOTHROP'S TONIC PILLS.
Medicines unrivalled for their wonderful properties and remarkable cures of all Nervous Complaints. Their efficacy is equally great in the treatment and cure of Cancers, Nodes, Ulcers, Pustule, Pimples, Tetter, Fever Sores, Ringworm, Erysipelas, Scaldhead, Barbers' Itch, Scurvy, Salt Rheum, Copper-Colored Blothes, Glandular Swelling, Worms and Black Spots in the Flesh, Discolorations, Ulcers in the Throat, Mouth and Nose, Sore Legs, and sores of every character, because these medicines are the very best
BLOOD MEDICINE

FINANCE AND TRADE.

MONDAY EVENING, June 19, 1876.

The money market opened quiet and easy to-day and presented no points for extended comment, business moving smoothly at the easy rates current for a long time. We continue to quote discounts on prime commercial paper at 8@9 per cent. in the course of regular business at the banks; but there is a strong tendency to seek paper classified as gilt-edged, which would be readily taken by the banks at 7@8 per cent., with loans on collaterals easily effected at 6@7 per cent. There is, however, less pressure on the part of lenders to place their funds, from the fact that in a few days some reservations will be made for the regular semi-annual disbursements and settlements on July 1st. This may cause a slight hardening of the money market, but the probability is that it will be so slight as to be imperceptible; and whatever effect it may have will be only temporary, as the money so paid out will soon return into active circulation. Bank notes are still abundant and exchange is in rather light supply, although we learned of no cases in which a premium was paid to-day.

—The recent decision of the United States Supreme Court apparently requiring holders of bills of lading accompanying time drafts, to deliver them to the drawees on acceptance of the drafts, unless otherwise instructed, has caused a lack of uniformity in the action of banks in the premises. At the time of the rendering of this decision, the banks of New York issued circulars to their correspondents instructing them to give special instruction in any case where they desired bills of lading *held* after acceptance of the drafts accompanying them. Where the New York bank receives no special instructions to the contrary, it invariably surrenders the bill of lading upon acceptance of the draft. In Boston many of the leading banks have taken the very safe ground that they must have from their correspondents in all cases absolute and specific instructions as to whether the bills of lading shall or shall not be surrendered. In cases where instructions are not at first sent with the drafts, the mail or wire is at once used to obtain them; and as twenty-four hours are allowed for acceptance of drafts, these required instructions ought in that time to be accessible anywhere in the United States.

"This" says a Boston paper, "is by far the most prudent course of action, and one which we should recommend for general adoption. Our reasons for holding to this opinion are found in the character of the famous bill of lading decision itself. A careful study of it will convince any one, it seems to us, that the only safe course is that we have recommended, and which has been indorsed by the most eminent Boston counsel."

—The New York *Herald* has the following concerning the formation of mining companies in California:

In San Francisco seven mining companies have been formed within a single week, each having a nominal capital of $10,000,000. We fear our California friends are overdoing the capitalizing business, their evident desire being to exceed all the other States and Territories in their estimate of values. A capital of $10,000,000 for a company that has never done a stroke of work, and whose total property consists of a few hundred feet on a not very well tested lode, is as a rule ten times larger than is permitted by the usage of other mining localities. The following companies were organized in San Francisco within a single week, each having a nominal capital of $10,000,000: Cuervo, Darwin Consolidated, Cerro Gordo Consolidated, South Modoc, Inyo, Garibaldi and Modoc Consolidated.

Thus far the Bank of California has levied $2,600,000 in assessments. An assessment of 75 cents per share has been laid by the Oro Fino Mining Company. The trustees of the Trojan Company have taken off 50 per cent. of their present assessment.

—The St. Joseph (Mo.) *Herald* says that the bridge bonds of that city were issued under the act lately decided unconstitutional by the United States Supreme Court, and that nearly the whole indebtedness of Buchanan county stands in the same predicament. The *Herald* faintly adds: "We are not in favor of the repudiation of debts on technical grounds."

[By Associated Press.]

Gold Closed at 112½.

MONEY.

NEW YORK, June 19.—Money closed easy at 2@2½ per cent. Prime mercantile paper 3½@5½ per cent. Customs receipts $330,000. The Assistant Treasurer disbursed $97,000. Clearings $9,000,000. Sterling quiet at 486¾@489¾.

GOLD.

Gold opened and closed at 112½, with sales in interim at 112⅝. Borrowing rates 1@2 per cent. per annum and 1-64 per cent. per diem. Loans also made flat and 2 per cent. for carrying.

STOCKS AND BONDS.

Government bonds strong and in good demand. Railroad bonds firm. State securities steady. The stock market was firm and higher in the early dealings for Western shares, but otherwise quiet and steady. Later there was a break in coal roads, which had a depressing influence on the general market. New Jersey Central declined to 76½; Delaware, Lackawanna and Western to 104⅝ regular and 104¼, seller sixty days, and Delaware and Hudson Canal to 105. Shortly before the close the market became firm and prices advanced ¼ to 1 per cent., with the greatest improvement in coal roads. The advance was caused by the denial of a report, freely circulated during the morning, that Delaware and Hudson would pass their dividend. Transactions 83,000 shares, of which 11,000 were Western Union, 13,000 Northwestern, 5,000 Rock Island, 14,000 St. Paul and 20,000 Lake Shore. The following were the closing quotations:

GENERAL MARKETS.

OFFICE OF THE PITTSBURGH COMMERCIAL,
MONDAY, June 19, 1876.

The week opened with a generally steady and satisfactory tone in the leading mercantile branches, but the volume of transactions was still limited, more noticeably so in the grain trade. In prices there was not much variation, the most prominent changes being in eggs, under scarcity of stock, and an appreciation of ¼c on coffee, under the influence of strong Eastern advices.

The receipts of the leading articles of produce in this city since our last are as follows:

Flour, bbls	1,125	Cheese, bxs	264
Corn, bush	400	Butter, pkgs	56
Wheat, bus	3,515	Bacon, tcs	161
Rye, bush	115	Hay, bales	430
Oats, bush	1,995		

The quotations given in the following reports are prices realized in wholesale transactions, unless otherwise specified. On small sales, dealers will charge an advance. Prices of grain, unless stated to the contrary, are free in elevator.

Grain, Flour and Feed.

GRAIN—The market continues dull and sluggish, and transactions are so irregular that quotations are hard to make. Wheat is held nominally at former prices although to effect sales in any volume, quotations would have to be materially shaded. We quote choice Michigan white winter at $1 38@1 40; prime Indiana red winter $1 30@1 33; Pennsylvania and Ohio red winter $1 25@1 28; Northwestern spring $1 25@1 30. Corn is quiet and steady. The supply being comparatively light, a much stronger tone is prevalent among holders. We quote shelled at 54@55c for prime yellow; 53@54c for high-mixed; 52@53c for low-mixed. We quote ear at 55@56c for prime yellow; 52@54c for mixed. Oats continue in excessive supply and very dull. We quote mixed Pennsylvania and Ohio at 34@35c; white do 35@37c; Western white 38@39c. Barley is out of market and quotations are nominal at 75c@$1 00, as to quality. Rye is easy at 75@77c per bushel. Jobbing sales rule 3@5c above quotations.

FLOUR—Is moving steadily in a jobbing way without noticeable variations in quotations. The rates current are as follows for the wholesale trade of our local millers: No. 1 white wheat flour $7 75 per barrel; No. 1 amber do $7 25; red wheat flour $6 75@7 00; in sacks 25c off ℘ barrel. The jobbing brands of the leading dealers for standard brands of flours are steady, as follows: Choice brands of winter wheat flour $7 00@7 25; white wheat $7 50@7 75; Wisconsin is quoted at $6 25@6 50; Minnesota $6 50@6 75; fancy St. Louis $8 25@8 50; choice patents $8 50@9 00; red winter wheat flour is active at $6 00@6 25; Graham flour $6 75@7 00; cornmeal 75c ℘ bushel; oatmeal $5 75 ℘ barrel; kegs $3 00. Rye flour $5 00 ℘ barrel.

HAY—The supply is still excessive and the market very much depressed, sales being made in some instances below quoted prices. We quote prime No. 1 timothy at $15 00@16 00 ℘ ton; No. 2 $13 00@14 00; upland and prairie $10 00@11 00.

MILL FEED—The market is quiet. We quote bran at $15 00@15 50 ℘ ton; seconds and shipstuffs $18 00@19 00; middlings $20 00@23 00; chopped feed $20 00@24 00. Oil meal is jobbing at $2 15@2 25 ℘ cwt.

Country Produce.

BUTTER—There is comparatively no demand for the stock held in commission houses, and prices continue very much depressed. We quote choice packed in tubs and boxes at 15@16c per ℔; prime 13@14c; common to fair 10@12c.

CHEESE—The market is easy and moderately active, with moderately liberal receipts. We quote new Ohio factory 9@9½c for choice; 7½@8½c for good to prime; 5@7c for low grades.

DRIED FRUITS—Continue quiet and nominal, there being little or no demand at this season. We quote common to choice apples at 9@10c; sliced 10@11c. Peaches—Halves 12½@13c; peeled 13@14c; evaporated peaches 20@22c. Blackberries 11@12c. Huckleberries 15@20c. Raspberries 30@33c. Cherries, pitted, 25@28c; unpitted 8@9c ℘ ℔.

EGGS—There was a sharp demand considerably in excess of the supply, and the East markets being reported very firm, the market here was quoted at a material advance. We quote at 15@16c per doz for strictly fresh.

FEATHERS—Are dull with only a small jobbing business at 56@57c per ℔ for prime.

FRESH FRUITS AND VEGETABLES—The market is easy and in fair demand. We quote as follows: Tomatoes, peck boxes, $1 00@1 15; onions, ℘ bushel crate, $1 75@2 00; peas $4 00@4 50 ℘ barrel; string beans $1 75@2 00 ℘ bushel; cabbage $1 75@2 00 ℘ barrel; cucumbers 25@30c ℘ dozen; $3 00 ℘ crate. Cherries $2 50@3 00 ℘ bushel.

HONEY—The market is quiet and steady, with domestic ruling at 20@23c ℘ ℔; new California 25c ℘ ℔.

MAPLE SYRUP—There is a steady jobbing grade, with quotations at $1 50 ℘ gallon can; maple sugar rules at 10@10½c ℘ ℔.

POULTRY—The market is quiet and easier, with a light supply and not very heavy demand. We quote live chickens at 60@65c ℘ pair by the coop.

POTATOES—The supply of old potatoes is considerably reduced, and prices are stronger under the influence of a moderate consumptive demand. Business in car lots was nominal at 35c for prime peachblows; 27@30c for Peerless. Sales from store ruled at 40@45c for peachblows; 30@35c for Peerless. New Carolina potatoes were quoted at $3 50@4 00 ℘ bbl.

VINEGAR—There is a steady trade at 18@20c per gallon for prime country stock; 15c for best city makes.

Provisions.

The demand for the leading staples of hog products continues moderately steady and in sympathy with the firm tone of the Western markets. We note an appreciation of about ¼c on lard, with a firm tone on other staples. Receipts are moderate.

BACON—The market is firm. Jobbing quotations are as follows: Shoulders 8¾c ℘ pound; short rib sides 11¾c; clear sides 12¼c.

CUT AND CURED MEATS—Hams were slightly higher at 13½c ℘ ℔ for extra sugar cured canvassed. Breakfast bacon rules steady and we quote sugar cured at 14c. Sugar cured shoulders canvassed were firm being quotable at 9¾@10c. Dried beef, sugar cured, rules at 15c. Beef tongues, ℘ dozen, are quoted at $7 00@7 50.

LARD—The market was steady. We quote prime leaf lard in tierces at 12¼c ℘ ℔; in half-barrels 12¾c; in buckets 13¼c ℘ ℔; refined lard in tierces 13c ℘ ℔; in half-barrels 13¼c ℘ ℔; in buckets 14c ℘ ℔; in 3-℔ caddies 15¾c ℘ ℔; in 5-℔ caddies 15½c ℘ ℔; in 3-℔ pails 16c ℘ ℔; in 5-℔ pails 15¾c ℘ ℔; in 6-℔ pails 15½c ℘ ℔.

LARD OIL—The market is steady. We quote extra 90c per gallon; No. 1 at 80c ℘ gallon; No. 2 at 68c; miners' oil, white winter, 60c; yellow winter 57c.

HAM SAUSAGE—Continues steady at 9¾@10c ℘ ℔.

MESS PORK—There was a steady feeling with light business at $20 75 ℘ barrel.

TALLOW—We quote chandlers, city rendered, 8¼@8½c ℘ ℔; country do 7½@8c ℘ ℔.

COUNTRY BACON—There is a moderate demand for country-cured meats at easier prices. We quote hams at 10@11c ℘ ℔; shoulders 7@8c; sides 10@11c; lard 10@11c.

Groceries.

A fairly active jobbing trade was done in staple groceries to-day. The most prominent feature in values was the strength in coffees in sympathy with the strong Eastern markets. The leading roasters advanced standard brands ¼c to take effect to-morrow morning. Sugars, syrups, spices, etc., were quiet and steady. Prices-current are as follows:

Petroleum.

June 19.—There was a very quiet and eventless market with no features calling for especial notice.

CRUDE—The market opened dull at $1 98¼ bid and $1 98¾ asked. There were scarcely any transactions all day. A trifle weaker tone prevailed this afternoon, and now $1 95 is bid and $1 96¼ asked. Shipment ruled nominally at $2 15 bid and $2 20 asked.

REFINED—The market ruled very steady and quiet, with no noticeable change in values. We quote standard white on the cars for Eastward shipment at 11@11¼c for five hundred and thousand barrel lots, free on board at works: 11¼@12c in car lots; 11@11¼c on barges for shipment to Richmond. New York delivery rules at 14¼c for prompt and the month. Philadelphia is quoted at 14¼@14⅜c for spot. Baltimore rules at 14⅛@14¼c for prompt. Richmond delivery is nominally quoted at 13⅞@14c.

OIL BARRELS—The market dull and easy. We quote city-made at $1 15; country do at $1 05.

[By Western Union Telegraph.]

OIL CITY, June 19.—The *Derrick* says of yesterday's market: At the opening a few sales were made of United at $1 99⅜. The feeling then became weaker and a decline took place to $1 97¼, which was the ruling price throughout a greater portion of the day, till the close, when an improvement was made to $1 98¼ bid and $1 98¾ asked for strictly fresh. Shipment ruled at $2 21¼@2 22¼. The sales were 27,000 barrels.

NEW YORK, June 19.—There is a quiet market but prices are steadily held. Crude in bulk is quoted at 8⅝c, and 11c in shipping order; refined 14¼c; cases 18@20c; naptha 9@9¼c. At Baltimore refined rules at 14@14¼c; at Philadelphia 14¼@14⅜c.

CATTLE.

The same cloud of dullness which rested on the market at East Liberty last week was clearly apparent at the Union Drove Yards to-day. Particularly was this the case with cattle, owing, perhaps, to the increase in the offerings over that of last week. But be the cause or causes what they may, the market was decidedly dull and draggy. We heard of a sale of a bunch of extra 1,500 ℔ cattle at $5 75; but this was an outside price, the ruling rates not being over $4 00@5 00 ℘ cwt., and hard to sell at these prices. All the offerings of cattle would not be disposed of, and their owners would seek a market elsewhere.

As will be seen by the table given above, the receipts of cattle by rail are 59 head in excess of last week. The quality of offerings were of the usual order—good medium and inferior. It is useless to repeat that the market was a dull one, and that prices were no better than those ruling last Monday. Opinion is divided as to whether bottom prices have been reached. With fair 900 to 1,000 ℔ cattle at $4 25@5 00 per cwt., the conundrum presents itself: Why do not prices of cut meats recede in proportion? We quote as follows:

Extra, 1,500 to 1,600 ℔s (reported)	$ 5 25@ 5 75
Prime, 1,300 to 1,400 ℔s	4 50@ 5 00
Prime, 1,100 to 1,200 ℔s	4 25@ 4 75
Good, 900 to 1,000 ℔s	4 20@ 4 60
Bulls	3 00@ 4 00
Milch cows	30 00@60 00
Veal calves	4 75@ 6 00

HOGS.

The offerings of hogs were light and prices about the same as last Monday. Most, if not all the offerings would be disposed of ere the close of the market. The notice that local butchers this warm weather prefer light for hogs, and that most of the offerings were of that class. The following were the prices at which sales were made:

Best tops	$6 65@6 75
Good butchers'	6 40@6 50
Fair butchers'	6 25@6 30
Roughs	5 75@6 00

SHEEP.

The run of sheep was one-third less than that of last week, though fully enough to meet the demand. Lambs are arriving freely and those suited for the market found ready sale. Owing to the light run the market was firmer and sales more readily made, at prices about the same as last Monday. Should they prove heavy next week still lower prices may be looked for. We quote as follows:

Prime, 95 to 100 ℔s	$5 15@5 25
Prime, 85 to 90 ℔s	4 75@5 00
Good, 75 to 80 ℔s	4 50@4 60
Good, 70 to 75 ℔s	3 75@4 25
Lambs	1 75@4 00
Common, per head	2 00@2 10

(By Associated Press.)

MONONGAHELA—Three feet three inches and rising.

Boats Advertised for This Day.

Brownsville and Geneva......8 A. M. and 4 P. M.
St. Louis.....Fontenelle......Brennan.....4 P. M.

THE marks last evening indicated three feet three inches by the stone marks and rising. The weather was cloudy. The present rise is from the Youghiogheny and Allegheny. More is expected.

THE towboat Thomas W. Means is laid up at Louisville.

THE John L. Rhoads' freight arrived yesterday by barge.

COMMODORE KOUNTZ is in St. Louis hurrying up the completion of the steamer Paragon.

THE towboat Bee takes the iron steamer Carondelet to New Orleans from St. Louis.

THE rise in our rivers was good as far as it went, but a few feet more would be very acceptable.

THE steamer Exchange will run between Cincinnati and Huntington during the low water.

TOWBOATS laid up between Cincinnati and Pittsburgh will be able to make port in this water.

A BILL has been introduced into the New Orleans City Council, reducing the wharfage 50 per cent.

A BARGE rise is hardly looked for, unless there has been more rain than we have any information about.

THE Allegheny river was rising at Oil City at noon yesterday. There was two feet five inches and rising slowly.

NOTWITHSTANDING low water, the packets on the slackwater arrive and depart promptly on time, leaving at 8 A. M. and 4 P. M.

YOU can believe as much of the following as you please: The Charles Morgan's passenger receipts for twenty trips is reported at $58,000.

CAPTAIN WHITTAKER wants six feet of water. We hope he may get it. This will enable the Fearless and barges to go on their way rejoicing.

THE steamer John L. Rhoads, Captain J. M. Vandergrift, left Wheeling yesterday, and will be found at the landing. She will have dispatch for a return trip.

THE Cincinnati *Gazette* of Saturday says: Captain J. N. Williams was negotiating yesterday for the charter of the Era No. 9, intending to take her up the river.

CAPTAIN E. F. MADDY, who retired from the river some time ago, is back again to his old line and is commanding the steamer Clara in the Ironton and Huntington trade.

ED. F. MADDY has put the Clara in the Ironton and Huntington trade, making two trips from Ironton, in connection with the Chesapeake and Ohio trains, at Huntington.

THE fine steamboat Fanchon will leave Cincinnati for this port on Thursday. Any of our people having freight there can have it shipped by the Fanchon and brought through in good time and order.

THE new Arkansas river packet Gov. Garland, built by James Rees, Esq., was brought around to the Monongahela landing. She presents a fine appearance, and will do credit to all concerned in her construction.

NAVIGATION to the lower ports is suspended until we have a rise. How long before that event takes place is further along. It is, however, about time for the June rise to put in an appearance.

TWO NEW signal lights have been located at Devil's Elbow cut-off. The first is on the extreme point of the Cut-off Island; the second on the middle of the willow shore, on Brandywine Bar. These lights cross the shallowest water twelve feet.

THE light draught steamer Fontenelle, Captain C. L. Brennan, is announced for Cincinnati, Cairo and St. Louis. The rise in our rivers will enable her to go through without detention. The first clerk is Mr. Wm. Fitzgerald, a careful and attentive officer.

COMING up this trip the Golden Rule lost nearly two hours pulling at and relieving the Frank Pargoud, aground at Thirty-mile Point. The Pargoud offered Captain Shinkle $125 for the service, which he declined. The same boat charged the Bodmann $700 for a similar service.

EZELL & Co. have reshipped from Terrene, opposite the mouth of White river, during the past season 33,400 bales of cotton. All but 3,000 or 4,000 have gone South. This added to 70,000 shipped to New Orleans from this port, makes over 100,000 bales from here, and Arkansas and White river shipped to New Orleans, besides that shipped on through boats.

THE Memphis *Avalanche* says: Captain James Lee, Jr., was contracting at Metropolis, Ill., with Alf. Cutting for a new hull, to be completed in sixty days, to be 200 feet long, 34 feet beam, 30 feet floor and 6 feet hold. The machinery and cabin of the Quickstep will be transferred to the new boat, and she is intended to be a Friar's Point, Greenville or Vicksburg packet, as occasion may demand.

THE Davenport *Gazette* goes for Commodore Davidson's system of boating as follows: The queerest steamboating ever known on the Upper Mississippi is perplexing people at present, at the various ports of this latitude. The Northern Line pretends to send out three packets a week each way, but there is no regularity about the runs—two or three packets will come in one day, and then there won't be any more from two to four days; packets arrive at night and scoot out, after they have telegraphed that they will be here in the morning. And so they do business, not caring much how they do carrying, for there's no opposition. Then the Diamond Jo, the solitary traveler of the Jo Line—she lays off any time and anywhere for excursion parties, lets her freight wait for her, while passengers can take to the railroad if they want to.

STEAMERS SUNK IN THE MISSISSIPPI.—The following steamers were sunk at the places designated. The list was furnished to the Cincinnati *Enquirer*: From Island 21 to Hale's Point: Havana, Smithland, Governor Dodge, Rolla, St. Charles, H. D. Newcomb, Belle Creole, Ben Stickney, Lady, Coosa, Seventy-six. From Hale's Point to Island 30: Celeste, Caspian, Henry Bry, Orb, Magic, Kate Aubry, Ellia, Daniel Boone, Belle Gould. From head of Island 30 to Creighton's Point: Louisville, Caroline, North America, Neptune, Empire State, Eliza, Eugene, towboat Yankee, Tom Carmine, St. Cloud, Telegraph, Jubilee, Illinois. At Island 34: Fanny McBurnie, Henry Clay, Niagara, Vulcan, Empress, Argo. At Island 35: Emma No. 3, Grey Eagle. At Island 37: Waffles. At Point Able, Yazoo Belle. At head of Devil's Elbow: Pacific. In bend at Devil's Elbow: Silver Spray. At Devil's Race Ground: South Bend. At Brandywine Bar: Brandywine, St. Mary, Fanny Brandies, Alabama. At Island No. 37: Tug W. H. Brown. At Island 40: Towboat Hercules. At Paddy's Hen: A. L. Shotwell, Steven Decator. Between Hen and Chicken: William R. Campbell, Tuscumbia. On Arkansas side of all Islands: Sultana.

PROPOSALS.

PROPOSALS FOR WORK AT NATIONAL MILITARY CEMETERY.

OFFICE OF NATIONAL CEMETERIES,
WASHINGTON, D. C., June 12, 1876.

SEALED PROPOSALS, IN TRIPLICATE, with a copy of this advertisement attached to each, will be received at this office until SATURDAY, July 15, 1876, for the construction of a Superintendent's Lodge, of brick or stone, at the National Cemetery at Grafton, West Va.

Also, for the construction of an enclosing wall and a Superintendent's Lodge, of brick or stone, at the National Cemetery at Finn's Point, N. J. (opposite Fort Delaware).

The work during its progress will be frequently inspected by competent engineers, and a strict compliance with the terms of the contract will be required.

The right is reserved to reject any or all bids not deemed of interest to the Government.

Copies of plans and specifications may be seen at this office and at the Quartermaster's office at Philadelphia, Pa., (1139 Girard street), also at the cemeteries above mentioned.

Proposals should be indorsed "Proposals for Lodges (or Walls) for National Cemeteries," and addressed to the undersigned. They will be opened at noon on the date specified, when bidders are invited to be present.

A. F. ROCKWELL, Captain and A. Q. M.

TARRANT'S SELTZER APERIENT
NO ONE SHOULD TRAVEL without a bottle of
Tarrant's Seltzer Aperient.
Changes of temperature, irregularity of rest and eating, and exposure to draughts, are great and active agents in deranging the secretions of the body. A dose of this aperient will prevent the evils resulting from such causes, and may save many inconveniences and dangers.
TTHS SOLD BY ALL DRUGGISTS.

TO
Coke Manufacturers.
EVAN NOKES is the oldest and best Coker in America. In an experience of sixty years he has never failed to get good Coke, regardless of the quality of the coal used. He has strong recommendations from D. J. Morrell, Superintendent of the Cambria Iron Company, H. S. T. Tarr, Superintendent of the Rock Hill Iron and Coal Company, and other distinguished gentlemen. He is now willing to engage himself for a month, six weeks or a longer period to iron men who want to learn how to make good Coke. He guarantees satisfaction in every case. He has yet to make a failure. "Mr. Nokes tests the quality of the coal which he cokes as a miller tests flour—by feeling the broken coal. He tests the success of the process employed by him by the color of the flame, and he never fails." Those who have had trouble in getting a good quality of Coke, and who want to be taught the art of success, should write for terms, &c., to

Postponement.

The meeting in the interests of theological education, and particularly of Drew Theological Seminary, announced for Christ M. E. church, has been postponed from Tuesday evening, June 20th, until the autumn, the precise date to be determined hereafter. The immediate cause of the postponement was the desire not to conflict with the commencement of the Pittsburgh Female College, which occurs on this (Tuesday) evening.

Self Strangled.

A man named George Allen, who lived with his brother and sister-in-law, in Mill vale borough, committed suicide on Sunday afternoon. The deceased was subject to fits of insanity, and has made several attempts to take his life. A short time ago he shot himself, while temporarily insane, since which time one of the sides of his body has been paralyzed. Sunday afternoon the family were absent, and when they returned home they found him hanging to a clothes line, suspended in the kitchen, dead. The Coroner was summoned, and the jury rendered a verdict of suicide while temporarily insane. Deceased was a native of England, and had been in this country but six months.

Discriminations in Freight Charges.

To the Editor of the Pittsburgh Commercial:

We are glad to observe that the apathy which has so long been the rule among Pittsburgh manufacturers and merchants, on the subject of discriminations in freight charges by the railroads centering here, is giving way to a lively interest; and we *feel* encouraged to hope that relief *may* yet come through united action *on the part* of our business men. *In order* to keep this interest alive, *permit* us to put on record in the columns of the COMMERCIAL a few more facts concerning the burden under which this business community has so long and so patiently rested, for the benefit of those "doubting Thomases" who have been wont to say that we of Pittsburgh were no worse off than the people of other cities.

Fact No. 1: Merchants of Pittsburgh are charged just as much for freights from here to Indiana, Pa., a distance of sixty-five miles, as is charged for transporting the same class of goods from Chicago to Philadelphia, a distance of 823 miles.

Fact No. 2. Freights are carried from Chicago to any point on the Pennsylvania Railroad west of Harrisburg for thirty-five cents per hundred weight, and to points between Harrisburg and Philadelphia for thirty-six cents per hundred; while Pittsburghers are compelled to pay forty cents per hundred.

Fact No. 3: Philadelphia merchants can ship second class freight from that city to Davenport, Iowa, at the rate of $63 per car load, while our people have to pay per car load to Davenport, $152.

Fact No. 4: While rates on iron from here to the Eastern cities, where our manufacturers have no considerable markets for their wares, have been slightly reduced, no concessions have been granted from Pittsburgh to Western points, where they sell the bulk of their products. At the same time, iron can be shipped from Philadelphia, Baltimore, New York and Boston to the West at less rates than are charged from Pittsburgh to the same markets.

We submit these facts to the thinking public without comment, letting them speak for themselves. If any one questions the truth of the above statements, we are prepared to verify them with documentary evidence.

COURT PROCEEDINGS.

Common Pleas No. 1—Judge Sterrett.

In the matter of the petition and account of J. H. White, assignee of George B. Hill & Co. *et al.*, a rule was granted on all parties interested to show cause why the balance remaining in the hands of the assignee should not be paid over to himself, and he be discharged as assignee.

Common Pleas No. 2—Full Bench.

Charles Beyer vs. L. Keifer. Exceptions overruled, report of master confirmed and defendant directed to pay to plaintiff $2,097 91 with interest from date, the same to be paid within thirty days. The costs were equally divided.

Merchants & Manufacturers' Bank of Pittsburgh vs. Wm. H. Mechling, James Littell and R. P. Powers. The question of law reserved was disposed of and judgment ordered to be entered on the verdict in favor of plaintiff.

Jerome S. Bonnett vs. R. H. King *et al.* Question of law reserved decided in favor of defendants, and judgment ordered to be entered for defendants.

Leonora Herbst vs. Robb, Hodgson *et al.* Reserved question of law decided in favor of plaintiff for one dollar damages and costs.

Margaret Clowes vs. Robert Clowes. Final decree of divorce allowed.

Quarter Sessions—Judge Collier.

The jury in the case of Isaac Elliott and Daniel Lafferty, two of the men charged with outraging the person of Miss Annie Roth, came into court at noon, and rendered a verdict of guilty in manner and form as indicted. They had been out since Saturday afternoon. The defendants were remanded for sentence.

James Poor, a lad aged about eighteen years, plead guilty to the larceny of a set of buggy harness, the property of Mr. Tannahill, and, this being his first offense, he was let off with a term of six months in the Workhouse.

Frank Schloneskoski, a boy about ten years of age, was tried for the larceny of a hand wagon, valued at ten dollars, the property of Magdalena Gruger. The jury found a verdict of not guilty.

James Maxwell was arraigned on a charge of larceny, in having, with Richard Savage and Alfred Swinehart, robbed the house of Mr. Price, corner of Arch and Carroll streets, Allegheny, in February last. About $150 worth of jewelry and $100 worth of other goods were stolen. The charge was that Maxwell remained outside, on watch, while the other two men ransacked the house and stole the goods. Swinehart is now in the penitentiary for this offense, but Savage escaped arrest. Several witnesses testified to seeing the defendants together, within a short time of the robbery, and to seeing Maxwell on the outside, whittling at the fence. Mr. Price had an interview with Maxwell, after his arrest, and wanted him to tell where the goods could be found; and he first said that they were in one of two places, and finally refused to say anything more on the subject. The testimony was deemed insufficient, and the jury acquitted.

Frank Gent, William McCully and William Wehner were tried for the larceny of between fifty and sixty dollars, from the till in the saloon of Bernard Brosi, on Carson street, South Side. A verdict of not guilty was rendered.

Frank Gent and William Wehner were then tried on a charge of stealing a lot of jewelry, and other goods, from the saloon Mrs. Crystal. The jury acquitted.

Henry Hays was tried on a charge of obtaining ten barrels of buckwheat flour from Peabody & Co., by falsely pretending that the flour was for the Iron City Mills, on Thirty-eighth street. Hays was in the "self-rising" flour business, and had his office at the Iron City Mills. The prosecution called witnesses to prove that Hays ordered the flour for the Iron City Mills, and that it was charged to that firm, on Peabody & Co.'s books, on fifteen days' credit. When the time was up, the bill was presented to the owners of the mill, who refused to pay, on the ground that they had not ordered the flour. The defense alleged that the flour was ordered by Hays, through his brother, to be delivered at the mill, for Hays, and not for the mill. It was not paid for, because he had not the money at the time, and was prosecuted for false pretenses before he got the money to settle with. The jury is out.

Thomas Burk was convicted of assault and battery, on oath of Jennie Hill. The defendant was required to give bail in the sum of $500, to keep the peace towards the prosecutrix.

Floyd Carroll was put on trial for felonious assault and battery, on Louis Taffle. The assault was committed at Turtle creek village. On trial at adjournment.

TRIAL LIST FOR TO-DAY.

Commonwealth vs H. B. Aldrich, Joseph Langdon and Herron, B. F. Larkin, Michael Cary, Lunday Montana, Thomas Burk (2), Frank McClintock, Thomas Lindenfelter, Thomas Gibben, James McAlister, Henry Hays; Henry West; James Douglass; August Gintor; D. Davis; Michael McNamara; Wm. McCarthy, Peter Sentral, Jacob Bush; Frank Kramer; Cyrus Donaldson; Fred. Hensey; Robt. Dennison; John Hughes; Jos. Boner *et al*; Jacob Snyder; T. Allen; Edward Currier; Louis Winkleman.

Orphans' Court—Judge Hawkins.

The audit list was under consideration yesterday, and will be taken up from day to day until disposed of.

LOCAL OPTION.

State Temperance Convention—What is Proposed to Be Done—No Separate Ticket This Year—An Address.

A State Temperance Convention, slimly attended by delegates outside of Allegheny county, was held yesterday afternoon at the Alliance rooms. The purpose of the meeting was to take means toward securing the re-enactment of the Local Option law. Rev. S. C. Jennings called the meeting to order and Hon. Felix R. Brunot was subsequently elected Permanent President. Rev. F. R. Wotring opened the business with prayer and the following additions to the list of officers were elected:

Vice Presidents—Rev. Dr. Nesbitt, Joseph Wilson, Rev. F. R. Wotring, Rev. Dr. Easton, A. T. Moorhead, of Indiana, and H. D. Rodgers, of Mansfield.

Secretaries—Rev. J. T. Oxtoby, of Erie county; Rev. S. M. Henderson, of Erie; R. C. Croft and W. H. Gay, of Allegheny.

President Brunot made a short address arguing that the several districts of the county should have the privilege of voting for or against prohibition.

The following committees were then appointed:

On business: Rev. Dr. Jennings, H. C. Brown, Thomas Lawrence, D. J. Rodgers and Rev. J. B. Waddle.

Executive Committee—Rev. Dr. Osmond, Dr. J. C. Kennedy, Rev. Shaw, Rev. J. S. McConnell, General F. H. Lane and Dr. D. L. Starr.

Committee on Address—Dr. D. L. Starr Rev. J. T. Oxtoby, Rev. S. C. Jennings, Rev. G. K. Osmond, Rev. J. S. Eastman, Rev. R. Audley Brown.

In the absence of the committees Rev. Osmond called upon Mr. Moorhead of Indiana county for an address. Mr. Moorhead said he was an old worker in the cause and took a great interest in it, but he had come to hear and learn, not to speak, he asked, at this time to be excused.

Mr. Ormond moved that the ladies of the Allegheny county societies be requested to name two of their number for the Executive Committee. Carried.

Rev. Jennings, from the Committee on Business reported the following:

WHEREAS, The temporal and spiritual interests of the inhabitants of Pennsylvania would be best promoted by prohibiting the manufacture, sale and use of intoxicating liquors as a beverage and

WHEREAS, The civil power of the State emanates from the people of whom we are a part, therefore

Resolved, That in the exercise of that power at the ballot box and by all other lawful means will seek to secure such legislation as will give us a local option law.

Resolved, That while we lament the existence of other evils in the commonwealth besides the sale of intoxicating drinks as a beverage, we assert that this is the greatest, being the parent of many others and that it should be promptly removed.

Resolved, That in our choice of civil officers we will give our preference to men of temperance principles and of temperate habits, and that we earnestly invite the press everywhere to encourage and support our cause.

Resolved, That it be hereby recommended to the *friends* of the local option *movement in* every county by committee to *respectfully* interrogate every candidate for the Legislature of Pennsylvania as to his unwillingness to favor the enactment of a local option law as the new Constitution would sanction.

Resolved, That in the counties of the State where the voters for the late local option law were successful, be requested in this great struggle for truth and righteousness, to ascertain as far as possible the amount of intoxicating liquor sold in their respective counties during *as much time* before and after the operations of said law as there was during the length of time it was in force, and other facts bearing on the question of the usefulness of said law, and publish them through every possible channel.

Resolved, That we recommend the friends of such a law to meet in their several counties and appoint a Committee of Vigilance to carry out the measures proposed and to circulate petitions to the Legislature to pass such a law, and to do whatever else is wise and just, to save our Commonwealth from the ruin effected by both adulterated and genuine alcoholic liquors.

Resolved, That in reliance on a righteous Providence we will persevere in our object, and that the Executive Committee be requested to call another at such time and place as they may think proper.

The preamble and resolutions were taken up *seriatim*, and on each much discussion took place, in many instances on verbal amendments.

A resolution subsequently offered denying votes to candidates for the State Legislature unless they pledged themselves to vote for local option was declared out of order.

The Convention then adjourned until evening.

EVENING SESSION.

The evening session was held in Smithfield M. E. Church and Wm. Little, Esq., occupied the chair. After prayer by Rev. Ormond, Rev. Dr. Starr, from the committee appointed in the afternoon, read a lengthy address. It opened with a statement of statistics showing the extent of the manufacture of intoxicating liquors in the United States, the cost per adult head, a comparison of the number of liquor establishments with the number of schools, the number of persons employed in the liquor business as compared with the number of *ministers, etc.*, etc. The address closes as follows:

"Our proposition is to disconnect the license to manufacture and traffic in intoxicating liquors from all other political consideration, and let it stand or fall on its own merits. Let the popular vote decide whether the State shall be a co-partner in the nefarious business of making drunkards, criminals and paupers, as it certainly is while for a fee it grants licenses to pursue a business the legitimate and constant fruits of which are drunkenness and poverty. If we are convinced that the people of our State are so lost to virtue and philanthropy that they prefer drunkenness to sobriety, crime to innocence, and poverty to competency, then we are in a deplorable condition, next door to those neighbors of whose condition and country it is said, "Abandon hope all ye who enter here." Our principal difficulty has been to concentrate the influence of patriots and philanthropists, so as to make that influence bear directly on this subject without effecting others. In our proposed efforts to have the Local Option law re-enacted we do not ask the Republican to be less a Republican, we do not ask the Democrat to be less a Democrat, nor do we ask the Prohibitionist to be less a Prohibitionist; but we do say to good men and women of all parties and religious denominations, that God and humanity demand our concentrated action. Our Government is founded on the principle that the majority have a right to govern within certain restrictions and we want to bring our concentrated influence to bear on our law makers to induce them to enact a law equivalent to the repealed local option law, embracing the whole State, so as to present the question to the popular vote, "shall license to manufacture and traffic in intoxicating liquors be granted in our State?" It would seem that under our popular form of government nothing could be more consonant with its theory, but when we had such a law it was repealed at the demand of the liquor interest. * * * Our plain course of action is to demand candidates for office "who fear God and hate covetousness." Let our Republican friends say to their candidates: "We require of you a solemn pledge that you will use your vote and influence if elected to the Legislature, to enact a law equivalent to the late local option law." Let our Democratic friends require the same pledge of their candidates and our Prohibition friends will stand the same test. If any candidate fails to make the required pledge, as we love our human race; as we love virtue; as we hate crime; as we recognize our respectability to God and the judgment we must and ought to excuse him though he be our brother, and give our votes and influence to those who are pled on the side of Local Option."

Short addresses were then delivered by Dr. George P. Hays, Rev. Jennings, Rev. Ormond, Rev. Audley Browne, Mr. George Finley and others. The opinion generally expressed was that it was injudicious to nominate a ticket this year,

Adjourned.

LEGAL NOTES.

SUIT FOR MALICIOUS PROSECUTION.

Charles T. Barkary has entered a suit in the Common Pleas No. 1 to recover damages against James Getty, Jr., for alleged malicious prosecution and false imprisonment. Getty prosecuted Barkary for selling and exposing obscene literature. A paper called the *Patrol*, from Cincinnati, Ohio, containing references to persons in this city, was circulated here, and the defendant, Mr. Getty, being desirous of obtaining one, mentioned the same to the plaintiff, who accepted a proposition to get him a copy for a certain sum of money. The plaintiff having carried out the agreement, the defendant had him arrested and lodged in jail. He was committed on the afternoon of the 12th inst., and released on June 16th, the Grand Jury having ignored the bill. He claims that he has suffered damages greatly in excess of $500, and brings this suit.

INJUNCTION GRANTED.

An injunction was granted yesterday by the Common Pleas No. 2, in the equity proceedings of Conrad Upperman *et al.* vs. the Union Building and Loan Association, restraining the defendants from issuing 250 shares of stock and loaning money to new stockholders.

Church Dedication at Washington.

The new building erected by the First Methodist Episcopal Church of Washington, Pennsylvania, was dedicated on Sunday, in the presence of a large number of people. Bishop Foster conducted the services, assisted by Rev. Dr. Pershing, of this city. A sermon was preached by the Bishop, after which Dr. Pershing presented the claims of the church. Seventeen thousand dollars were contributed, which wiped out the entire debt of the church. Among the heavy contributors were Harry Shirls, formerly of the St. Charles Hotel, of this city, who gave $2,100; United States Marshal Hall, $1,100; Joseph Wright, $1,000, and Samuel Haslett, $1,000. The building is very fine, and cost $42,000.

PENNSYLVANIA FEMALE COLLEGE.

The Baccalaureate Sermon—The Literary Address by Prof. Wilson — Sound Words for Ladies.

The commencement exercises of the Pennsylvania Female College were inaugurated on Sabbath evening last, when the baccalaureate sermon was delivered by the Rev. T. C. Strong, D.D., President of the Faculty, in the Shady Side Presbyterian church, before a very large and appreciative audience. The text was Proverbs 9:9—"Give instruction to a wise man, and he will be yet wiser, teach a just man, and he will increase in learning." The theme of the learned doctor was: "The Increase in Learning and Prejudicial to True Piety—the Nature of the Prejudice and its Falisity." The subject, it is needless to say, was treated in a very comprehensive and masterly manner.

THE LITERARY ADDRESS.

The literary address was delivered last evening, in the East Liberty Presbyterian Church, by the Rev. S. J. Wilson, D. D., of Allegheny. His subject was "Character and its Adornments." He began by saying: In speaking of character I mean good or virtuous character. The first element of such a character is moral sensibility. The eye is sensitive to the distinctions of color; the ear to the distinctions of sound. The one appreciates beauty; the other appreciates harmony. The one is offended and pained by ugliness, the other by discord. There is a moral sensibility corresponding to the physical sensibility of the eye and the ear, which perceives and approves that which is right, and hates and condemns that which is wrong. This moral sensibility may be so blunted that persons almost lose the sense of right and wrong. On the other hand, it may be cultivated, developed and refined, until the heart becomes almost a copy of the moral law.

The speaker then went on to discuss at length the proposition that, in a good, noble, virtuous, or great character, this moral sensibility is a fundamental and essential element. The development of the æsthetic faculties, by the means of education, next claimed the attention of the speaker, and the reasoning was forcible as the diction was pure and beautiful.

The adornments of character were then discussed, and we append a few passages under this head, which furnish a fair sample of the force and vigor which animated the whole essay;

One of the adornments of character is truthfulness. I do not mean simply speaking the truth—but living the truth. Indeed, I would give the word a very wide application. Punctuality is one form of it. Discharging to the utmost every duty is another. A minister who announces service at seven o'clock and begins at half-past seven, violates the law of truthfulness and sets an example of it to others. A lady who by her dress makes a show of wealth which she does not possess, violates the law of truthfulness and makes every diamond on her fingers speak and sparkle a lie. Truthfulness is a greater ornament of the character than dress is an ornament of the person. It is said that there are aristocratic families on Fifth avenue, New York, who shut up the front part of the house in July and August, and live in the back part, to make the public believe that they are at the seaside, or Saratoga, or in Europe. In what a labyrinth of lies such a course must involve them! This is only an exaggerated form of the evil of which I am speaking. This same kind of aristocracy stint their tables in order to give fashionable and luxurious parties. This is making the whole life a lie. Whereas, dress, manners and style of living should be a simple and truthful representation of the facts which they are presumed to indicate. I am not at all sure that I should deal in hyperbole if I should trace all the financial disasters and distress of the country to a lack of this species of truthfulness on the part of the women of the land. It is true that much of this distress is traceable to this source, and a thorough reform in this respect, by the women of the country, would do more towards restoring national prosperity than all the theorizing of statesmen and all the legislation of Congress.

But there is a general air of truthfulness which should invest the character as a bridal robe. The lip and the countenance should be true exponents of the heart. It is a sham politeness and a cruel mockery which makes a noisy profession of friendship when indifference or disgust is really entertained. The conventional politeness is utterly shallow and heartless, and consequently is not genuine politeness. The society in which the mere conventionalities of etiquette are most punctiliously observed is generally heartless, cold, uncharitable and cynical. The difference between this and genuine politeness is the difference between the gorgeous light in one of Turner's pictures and the light of the sun. The one makes nothing grow—warms nothing into life—while the other makes the world fragrant and lovely. You should always be "so glad" to see your friends; but if you are not do not say so. When the man you love asks your hand, do not feign a reluctance which will give you the air of a martyr, but speak and act the truth. Take Rebekah as an example. "And they called Rebekah and said to her, 'Wilt thou go with this man?' And she said, 'I will go.'" Right bravely she committed her life and fortunes to a young man in the far west, and breaking loose from the settled ways of her Mesopotamian home, went forth to the untried experiences of a new land.

Another adornment of character is good temper—a uniformly sweet disposition. Many ladies attempt to assume this ornament when they think occasion requires it. From out an atmosphere of gloom and ill-temper they come sweeping into the drawing-room wreathed in smiles and full of bright sayings, and rippling over with laughter and merriment; but the features are not accustomed to this kind of duty, and take to it awkwardly and reluctantly, and in the corners and angles lurk the imps of ill-humor which tell the tale, and show that character is assumed—that it is a part that is acted, not a life that is lived. One who is habitually and naturally good-humored and sweet-tempered has no need to make an effort to advertise the fact on the face. The fact will be written there in every line and lineament, so "that he that runneth may read"—and young men, if not fools, will read it. * * * A sweet, sunny, breezy temper is one of the noblest ornaments of character.

Modesty and charity were next considered as ornaments of character, but we have not space to follow the entertaining essayist any further. Suffice it to say that the audience, which embraced representatives from a large number of families of wealth and culture in the East End, were highly pleased and edified.

The services were opened with prayer by the Rev. S. M. Henderson, of Wilkinsburg, and closed with the Benediction by Dr. Wilson.

Dr. Strong, who presided, announced that the soiree musicale would take place this evening, at the College chapel; and on Wednesday, at 11 A. M., the alumnæ reunion; class day exercises at 4 P. M., and unveiling memorial at 5 P. M. Thursday, commencement exercises at 2 P. M.

The Death of Colonel Robert Anderson.

A large number of members of the Ninth Regiment, Pennsylvania Reserve Association, together with the members of other Veteran regiments, met yesterday evening at the office of Messrs. Swearingen and McCandless, for the purpose of taking action on the death of Colonel Robert Anderson.

Colonel T. Brent Swearingen occupied the chair, and Thomas Hindman Esq., was appointed Secretary.

The object of the meeting having been stated, it was announced that the following officers had been selected as pall bearers, in connection with an equal number of civilians: Captains Barbour and Hardtmeyer, Colonel Snodgrass and Sergeant Gilmore.

On motion, Comrades Hardtmeyer, Strickler and Abel together with the Chairman of the meeting were appointed a committee on resolutions on the death of the late Colonel of the Ninth Regiment, and during the absence of the committee the order and method of conducting the funeral ceremonies were discussed.

RESOLUTIONS OF RESPECT.

The committee reported the following which were unanimously adobted:

WHEREAS, It has pleased Divine Providence to remove from our midst our comrade and late commander Colonel Robt. Anderson, Therefore

Resolved, That in the death of Colonel Anderson this community has lost an estimable and patriotic citizen, who has in two wars shown his devotion to his country and conspicuous bearing in action.

Resolved, As comrades in arms we desire to pay our tribute to the gallant dead and express our esteem for him as a soldier and friend, always devoted and true.

Resolved, That as a mark of respect the members of the Ninth Regiment Pennsylvania Reserves attend his funeral as an organization.

Resolved, That our sincere sympathy is hereby tendered the family of deceased, and that a copy of these resolutions be published in the daily papers of the city.

On motion, it was ordered that comrades appear in dark suits, with badges and white gloves, and the following order of procession was decided upon: Eighteenth Regiment Band; Company A, Duquesne Greys, Captain John S. Kennedy commanding; Company B, Ninth Reserves, Captain Becker commanding, as escort, uniformed and armed; hearse; members of the Ninth Regiment and of other veteran regiments; family and friends of deceased in carriages.

Members of the Reserves and other veterans will meet at eight o'clock this morning at Armory of Duquesne Greys, old City Hall and from thence march to the late residence of deceased. The remains will be taken to the Cathedral and from thence to the St. Mary's Cemetery.

PITTSBURGH FEMALE COLLEGE.

Class-day Exercises—Reading Contest—To day's Exercises, &c., &c.

Commencement week at the Pittsburgh Female College, which began last Tuesday and will close this evening with the commencement exercises proper, has been, as it always is, a week fraught with interest to the students as well as to their teachers parents and guardians.

Yesterday afternoon the class-day exercises occurred. These exercises are a very prominent feature of commencement week, and create quite as much, if not more, interest than commencement itself. At three o'clock the College chapel was crowded with people who were there to witness these exercises, showing the great interest our citizens take in the graduating class. The exercises opened with instrumental music by Miss Kate Crumpton, after which an address was delivered by the President of the class, Miss Kate E. Strasser, then an oration by Miss M. Nataline Crumpton. Miss Nellie Long gave an instrumental performance. A history of the class was read by Miss Carrie A. Weaver, and "Prophecy" by Miss Mary N. Kerr, Misses Aggie Wier and Sallie Gibson performed on the piano. A poem was read by Miss Strasser. "Consolation of Faculty," by Miss M. Libbie Greene. Miss Mary Unger rendered a German song with exquisite grace, giving a fine specimen of the thorough musical training she has received. Presentation to class of '77 by Miss Jennie A. Taggart, and reply from class of '77. The exercises closed with a song, "Class Ode."

THE READING CONTEST.

Eight o'clock last evening found the chapel again literally packed with people who were assembled to witness the reading contest for the Margaret Davidson prize. Dr. Pershing having been unexpectedly called away from the city, Rev. C. W. Smith, pastor of the Smithfield M. E. Church, presided. The exercises were opened with prayer by Rev. E. B. Snyder, pastor of the North avenue M. E. Church, Allegheny. We append the regular programme of the evening's exercises:

Music—Irish Diamonds..........Fanny House.
No. 1.—"Jamie Douglas"...........Mollie Carr.
No. 2.—"The Witch's Daughter"...Anna Lucas.
Song—"Holy Mother"........Misses Young and Hellen.
No. 3.—"Washington"........Garnet Robison.
No. 4.—"Cleopatra"...........Mary N. Kerr.
Instrumental Duet—Grand Galop de Concert, Misses Voigt and Gibson.
No. 5.—"The American Flag"..................
Helen P. Pershing.
No. 6.—"The Lost Heir".........Mary Canfield.
No. 7.—"Uncle Daniel's Apparition"...........
Hattie Hoag.
No. 8.—"Mona's Waters"...........Lou Young.
Piano Solo—"Song in the Woods"..Aggie Wier.
No. 9.—"Hager in the Wilderness"...........
Mary Hemphill.

The contest closed with the performance of No. 9, and the judges, Josiah Cohen, Esq., Prof. Delano Jeffries and Rev. D. M. Hollister, retired to determine upon a verdict. During their absence the audience were regaled with a delicious feast of music, both vocal and instrumental, consisting of the "Shadow Song," by Miss Effie Voigt, a quartett, "Welcome to Spring," by Misses Young, Merchant, Millen and Monroe, and an organ solo, by Prof. Nichol.

The judges having returned, Mr. Cohen, their spokesman, said they were exceedingly embarrassed in arriving at a decision. The excellence of all the performances entitled each performer to special praise. They had, however, agreed to award the prize to No. 7. Their verdict was received with unbounded applause. Mr. Cohen then, in a neat and appropriate speech, gave the prize, a beautiful silver cup, to No. 7, Miss Hattie Hoag. The selection read by this young lady, "Uncle Daniel's Apparition," is from Mark Twain's "Gilded Age," and is an exceedingly funny description of an old darkey's first meeting with a steamboat. It was very cleverly rendered.

The performance of Miss Lou Young, the reading of a selection entitled "Mona's Waters," elicited much applause, as did also "Washington," by Garnet Robison, "The American Flag," by Helen R. Pershing, and several others. But we have not space to further particularize. All, indeed, were liberally applauded and were the recipients of choice floral contributions from admirers in the audience.

The piano solo, "Song in the Woods," by Miss Aggie Wier, gave proof of high musical attainments on the part of that young lady. Miss Gibson also evinced musical talents of no mean order, and for an amateur her performance was in every way commendable.

The commencement exercises proper will take place this evening in the college chapel.

PUBLIC AMUSEMENTS.

The German Military Orchestra.

This organization will give a concert on Thursday evening at Library Hall, and another on Friday evening at the Pittsburgh Opera House. Speaking of a late concert in that city, a Louisville exchange says:

"The concert given at Public Library Hall by the German Military Band was of a high standard of musical excellence. There were thirty instruments under the baton of Herr Carl Eck, and the interpretations were marked by an exaltation of style, a thoroughness of treatment and a delicious precision in execution that bespoke an organization of individual musicians disciplined in the best German school."

Reserved seats are for sale at Kleber's, 122 Wood street.

Colonel James A. Gray,

of Allegheny, has been absent from home since Wednesday afternoon, May 24th, and has not been heard of by his friends since that time. Any information that will lead to his return will be most thankfully received and gratefully acknowledged by his family, and any person having seen him since that date is earnestly requested to give information at the Allegheny Mayor's office. He is about sixty years of age, height five feet eleven inches, with grey whiskers and mustache; wore a dark suit with sack coat, black felt hat and cane with German silver head marked K. P.

CITY MATTERS IN BRIEF.

THE newsboys' Sabbath School will attend a festival this evening, in the Alliance rooms, on Sixth street.

P. C. DOYLE, a coal miner, of Irwin, Pa., was drowned on Sunday, while bathing in the Youghiogheny river.

AN Italian peddler of toy balloons, of this city, stabbed a Cumberland boy in Uniontown, on Sunday, inflicting a serious wound. The Italian is in jail.

THE number of deaths occurring in Allegheny last week was twenty-one—ten males and eleven females. Eleven of these were under two years of age.

IT is said that Mayor McCarthy will likely veto the joint resolution of Councils providing for a further compromise with the Nation Trust Company stockholders.

A WAGON, laden with glass, belonging to Cunningham & Ihmsen, broke down near the Monongahela House yesterday. It "let down" so easy that the glass was not damaged.

THE Howard Street Investigating Committee, of Allegheny Councils, were in session again last evening. They will probably be in session again—several times.

THE Chamber of Commerce, as do all citizens, calls for the completion of the new Water Works. The old works are in such a condition as may leave the city without water any day.

JOHN CHISLETT, Superintendent of Allegheny Cemetery, who has been in Texas for the last five months in search of health, is expected home to-day. His physical condition is much improved.

THE roof of Mr. Robert Gray's residence, on Irwin avenue, Second ward, Allegheny, caught fire about nine o'clock yesterday morning, but the flames were extinguished without damage, by a Babcock.

WILLIAM STEWART, a well-known farmer of Jefferson township, was thrown from a buggy yesterday morning, at Elizabeth, and dragged nearly half a mile. His neck was broken and his head smashed to pulp.

JOHN ROUTH, the veteran conductor on the Wall's accommodation train, who has been absent from duty from the effects of a severe grip of colic, was on his train again yesterday, and was warmly greeted by many friends.

A. SCHUMAN, accused by Captain Tyson of selling by false measure, had a hearing before Alderman Edgar yesterday, and was fined five dollars and costs. He plead guilty, but stated that he didn't know he was violating any law.

Two men, residents of New Castle, arrived in the city yesterday, about noon, by rail. One of them owned a pair of carrier pigeons, and had bet twenty-five dollars, with his friend, that they would return home on the wing. The birds were let loose from the basket in which they had been confined, and when last seen they were heading in the direction of home.

FLATTY BOYLE, who attempted to escape from Officer Nelson on Saturday, was taken to the Penitentiary yesterday morning. He asked that he be conveyed to his future quarters in a carriage, and his request being refused he told the officers they would have to drag him. This they proceeded to do, and the prisoner reconsidered and consented to walk.

JAMES CASSIDAY, a locomotive engineer, has been held to bail in $300, by Mayor McCarthy, on a charge of larceny of a watch from a brother chip. It is alleged that on Sunday, at the Rush House, while John Lucky, also an engineer, was under the influence of liquor, Cassiday took the watch from Lecky's pocket and then left him. The watch was found in Cassiday's possession when arrested.

MR. J. G. GRIFFIN, of this city, met with a serious accident at his home at Leetsdale, Pittsburgh, Fort Wayne and Chicago Railway, one day last week. He was in the loft of his barn directing some men who were putting in hay, when by a step backward he fell through an open hatchway to the floor of the stable, two stories below, dislocating his shoulder and two of his ribs. He is improving, and will soon be around again.

THE CHAMBER OF COMMERCE.

The Board of Directors in Session—Demand for Completion of New Water Works and Other Needed City Improvements.

The Board of Directors of the Chamber of Commerce held a regular weekly meeting yesterday afternoon, President Howe in the chair.

The Executive Committee reported the election of Mr. N. Grattan Murphy as Superintendent of the Chamber. The report was approved.

Mr. Arthur Kirk read the following communication to the Board:

Another narrow escape from a water famine by the breaking of one of the old engines at the Pittsburgh water works last week, reminds us of the constant danger hanging over the trade and business men of Pittsburgh from the impure and insufficient supply of water now furnished our citizens. At the time the present works were built, the point at which the water was taken from the river was outside and above the source of all unhealthy impurities. But now both shores of the Allegheny river for miles above the point at which our drinking water is taken out, are lined by thousands of disgusting impurities, among which we may mention miles of hard paved streets whence the droppings of thousands of horses are daily washed into the river. The products of thousands of water closets, wash houses, bath tubs, tanneries, oil refineries, slaughter houses, etc., etc., all combine to pour in a stream of unhealthy ingredients which condemn the use of the water for any family purpose. As an instance of the impurities we may relate that the partly decayed remains of dead animals have been repeatedly taken out of the suction pipes of the present water works. When we take the facts into consideration that these sources of disease are annually increasing very rapidly and the increased clearing of the land at the headwaters keeps increasing the evaporation from the land and of course leaves less water to come down with the quantity of the above impurities so that there is a reduced supply of pure water to mix with them, we see that a quantity of drinking water will soon be supplied to our citizens (if it is not already) whose ingredients are repulsive and disgusting in the extreme. If we escape this summer from the ravages of some epimemic by the use of this impure water, we shall have more reason to thank the Giver of good than the wisdom of the managers of our city affairs.

Again, the present supply is insufficient. Many taxpayers in the rural districts complain that they are taxed for water, but cannot get a drop from our water works, because the present machinery cannot supply it. This is a gross injustice to rural districts.

Our present supply is also uncertain. When it is merely mentioned that some parts of the present machinery have been in constant service nearly forty years, day and night, would it surprise any one acquainted with such machinery to hear any day that some bolt or crank had suddenly broken and a whole engine had broken beyond repair? Again, suppose that a fire should break out at that critical time, would not the scenes of 1845 be repeated in our city, and perhaps thirty to fifty acres might be burned. Not to speak of the private loss, the city's loss in uncollectable taxes in the burned district would go a great ways towards finishing our new water works.

In view of the unhealthy water with which we may soon expect to be furnished during the warm months, the gross injustice to many citizens, and the great danger from fire, we would, therefore, recommend that the masterly inactivity policy be abandoned, and means adopted to put the new works in operation as soon as possible.

The communication was received and filed, its recommendations were approved and the Secretary was directed to furnish a copy to the City Councils.

A resolution was also adopted recommending the Councils of Pittsburgh to take prompt action looking toward the completion of the new water works at the earliest possible moment.

Mr. Joseph D. Weeks was elected a member of the Board to fill the vacancy caused by the resignation of Mr. J. B. Young.

Mr. Gregg offered the following, which was unanimously adopted:

Resolved, That the City Councils be respectfully urged to have Fifth avenue and Wood street repaved at the earliest possible time, the present condition of the streets being not only a disgrace to the city but a serious injury to the business of these important thoroughfares.

Adjourned.

Eclectic Medical Convention.

The Eclectic Medical Association of Pennsylvania will hold its annual meeting in this city June 22d and 23d.

Some of the most eminent of this class of physicians and surgeons in the State are expected to be present.

Two sessions will be held both days of the convention.

In the mornings, from ten to twelve, a free clinic will be held at the offices of Dr. Warner, No. 10 Ninth street, Pittsburgh, when those who wish to avail themselves of the opportunity will receive medical or surgical treatment free of charge.

The afternoon sessions, commencing at two o'clock, will be held in Council Chambers.

The Association's headquarters will be at the St. Charles Hotel.

Another Arrival from Fayette.

Sheriff Springer and his Deputy, General W. W. Williams, of Fayette county, took another party of prisoners to the Penitentiary yesterday, and three boys to the Reform School. Those for the Penitentiary were: William Parshall, convicted of misplacing a switch on the Connellsville Railroad and wrecking a train, ten years; Ewing Craft, for breaking into a blacksmith shop, three years; Smith, a horse thief, four years. The names of the boys are J. Bogardus, Robert Gorman and Jos. Murrin. The first two entered the notion store of Mrs. Gadd and stole a quantity of goods, and the other, who is colored, was also convicted of larceny.

Indisputable Evidence

ST. ELMO, ILL., July 8, 1874.

R. V. PIERCE, M. D., Buffalo, N. Y.:—I wish to add my testimony to the wonderful curative properties of your Alt. Ext. or Golden Medical Discovery. I have taken great interest in this medicine since I first used it. I was badly afflicted with dyspepsia, liver deranged and an almost perfect prostration of the nervous system. So rapid and complete did the Discovery effect a perfect cure that it seemed more like magic and a perfect wonder to myself, and since that time we have never been without a bottle of the Discovery and Purgative Pellets in the house. They are a solid, sound family physician in the house, and ready at all times to fly to the relief of sickness—without charge. We have never had any doctor in the house since we first began the use of your Pellets and Discovery. I have recommended the use of these medicines in several severe and complicated cases arising from, as I thought, an impure state of the blood, and in no case have they failed to more than accomplish all they are claimed to do. I will only mention one as remarkable (though I could give you dozens). Henry Koster, furniture dealer, of this place, who was one of the most pitiful objects ever seen, his face swoolen out of shape, scales and eruptions without end, extending to his body, which was completely covered with blotches and scales. Nothing that he took seemed to effect it a particle. I finally induced him to try a few bottles of the Golden Medical Discovery, with daily use of the Pellets, assuring him it would surely cure him. He commenced its use some six weeks since, taking two Pellets each night for a week, then one each night, and the Discovery as directed. The result is, to day his skin is perfectly smooth, and the scaly eruptions are gone. He has taken some seven or eight bottles in all, and considers himself cured. This case had baffled the skill of our best physicians. Messrs. Dunsford & Co., druggists, of this place, are selling largely of your medicines, and the demand steadily increases, and they give perfect satisfaction in every case.

AUCTION SALES.

VALUABLE FURNACE PROPERTY FOR SALE.

By virtue of an order of the United States District Court for the Western District of Pennsylvania, the assignees of

McKNIGHT, PORTER & CO.,
WILL EXPOSE TO PUBLIC SALE, AT
MONTICELLO FURNACE,
Cowanshannoc Station, A. V. R. R.,
ON
WEDNESDAY, JULY 19TH, 1876,
AT 10 O'CLOCK A. M.,

The following described Lands and Mineral Rights:

All that certain tract of land situated in Valley Township, Armstrong county, Pennsylvania, bounded and described as follows: Beginning at a poplar, on the bank of the Allegheny river, thence down the same by the various courses thereof, across Cowanshannock creek 224 perches to a corner; thence by vacant hills south 44 deg. east 2.6 perches to a birch; thence north 65 deg. east 142 perches to a maple, and thence north 25 deg. west 246 perches to the place of beginning, containing two hundred and sixty-three acres and seventy-six perches, more or less.

ALSO—That piece or parcel of land bounded and described as follows: Beginning at a post on Allegheny river, the corner of the above described tract, thence by said tract south 45 deg. east 116 1-6 perches to a stump; thence by land warranted in the name of John Nicholson; thence south 26½ deg. west 20 perches to a chestnut; thence north 68½ deg. west 163 perches to a post at Allegheny river; thence up the same, north 53½ deg. east 21 perches and north 5 deg. east 68 perches to place of beginning, containing thirty-nine acres and seventy-one perches.

ALSO—That certain piece or parcel of land joining the above described lands situated in Valley township: Beginning at a chestnut, thence north 26½ deg. east 20 perches; thence south 45 deg. east 65½ perches; thence south 77 deg. west 19 and 9-10 perches to a post; thence north 77½ deg. west 32 perches; thence north 49 deg. west 31 perches to place of beginning, containing eight acres and fifty-three perches, the title to which will fully and at large appear in Armstrong County Deed Book, vol. 26, page 534, said described lands being all connected, and known as the Monticello farm or tract, situated in Valley township, Armstrong county, Pa., the said three tracts lying together, and described by outside boundaries as follows: Joining lands of James Campbell on the east, James E. Brown on the south, the Allegheny river on the west, and James E. Brown on the north; having thereon erected, one Furnace, capacity, six thousand tons iron per year, from native ores, and has all modern improvements, viz: a large cyphon hot blast oven, bell and hopper, closed top, Lerman's patent dam and cinder block, four double flue boilers, one new Robinson, Rea & Co. blowing engine, capacity, 8 lbs. blast; and one horizontal engine with two cylinders, capacity, 4 lbs. blast; first class pumping engines, Blake's ore crusher, &c. Large stock house, casting house and engine houses.

ALSO—Incline tracks to river and railroad for lifting ore to stock house, furnished with first class machinery and steel wire ropes.

This property contains twenty-five to thirty years' supply of the finest quality of coking coal, and is underlaid with the cat-fish seam of coal, four and a half feet thick.

The coking coal is opened by fine entries laid with T Rail track, and furnished with scales, incline steel wire ropes, &c., all in complete order. Also, about 160 coal cars and coke cars; T Rail tracks connect mines and coke yards with stock house; everything is in order for immediate operation.

On this property are sixty-eight dwelling houses for operatives, three fine residences for superintendents and other officials; one large store building, grainery and mule stable, a blacksmith and carpenter shop; a railroad siding for forty cars extends from station to furnace.

A wire ferry connects ore and limestone mines on other side of river with the furnace.

Cowanshannoc creek, passing through the property, furnishes one of the finest water powers west of the mountains.

The property has a mile of river front; it lies on the Allegheny river, forty-eight miles above Pittsburgh, Pa.

ALSO—The undivided two-thirds of the upper strata or summit vein of coal in, under, beneath and underneath the farms of Samuel Sloan, Samuel Campbell and Josiah Campbell, situated in Valley township, Armstrong county, Pennsylvania, containing 140 acres of coal, and joining the above described property. This coal is being worked for furnace purposes.

ALSO—All that certain tract of land situated in Franklin township, Armstrong county, Pa., containing eighty acres, more or less, known as the Myers farm: Bounded east by the Allegheny river, south by Brown & Musgrove and Abraham Zillefrow, west by Brown & Mosgrove; north by William Minteer, having apple, peach and cherry trees thereon growing; one double house, 50x40 feet, and stable 30x40 feet.

This property is under a fine state of cultivation, and is underlaid with a fine seam of red iron ore, and a seam of limestone ore 20 feet thick, both of which have been mined for use at furnace for years. It lies on west side of Allegheny river, directly opposite the furnace.

ALSO—The undivided moiety or half part of that certain tract of land situated in Valley township, bounded and described as follows: On the east by lands of Daniel Forsythe, on the south by lands of Brown, Mosgrove and others, and on the west by Allegheny river and lands now or late of J. A. Lowrey, and on the north by lands of William Sloan, containing eighty acres, more or less, the title to which will fully and at large appear in Armstrong County Deed Book, vol. 26, page 533; on which are timber, coal and iron ore.

This tract lies detached from the Monticello property about one mile. It is a very fine piece of mineral property, but has never been operated on for such purposes.

ALSO—All that certain piece or parcel of land situate in Franklin township, in the county of Armstrong, State of Pennsylvania, bounded and described as follows: Beginning at a post on the bank of the Allegheny river, and running thence by lands of Daniel Lemmon's heirs south 89 deg. east 82 perches to a post; thence by Thos. Lemon north 1 deg., west 33 perches to a post; thence south 89 deg., east 2 perches to a black oak; thence by Morris and J. R. Ambrose south 88½ deg., west 254 perches to a post; thence by William Toy and John Moore north 1 deg., west 59 perches to a post; thence by R. R. Fleming south 89 deg. east 214 perches to a post; thence by R. R. Fleming and heirs of Wm. Montgomery north 1 deg., west 135 perches to a post, thence by Keys and Zeigler south 89 deg., east 212 perches to a post thence by Zeigler north 1 deg., west 16 perches to a post; thence by Daniel Lemon's heirs east 83 perches to a post; thence by lands sold to Lobean Tarr south 4½ deg., east 233 perches to a post on the banks of the Allegheny river; thence down said river south 60 deg., west 74 perches; thence south 44 deg., west 36 perches; south 32 deg., west 54 perches; south 27½ deg., west 45 perches, and thence south 20 deg., west 28 perches to place of beginning; containing eight hundred and ten acres, more or less, and being known as Allegheny Furnace tract, having thereon erected six log houses, a log barn, one dwelling house at Furnace Run, and one frame house, apple orchard, &c. About one hundred acres of said land being cleared and under fence.

This property lies on the west side of Allegheny river, one mile below the furnace; it is covered (excepting the cleared ground) with a fine growth of oak, chestnut and hickory. It has about one mile of river front. Some six hundred acres of the land is underlaid with the following veins of minerals, viz.: One vein cannel coal, formerly used for manufacture of coal oil; four seams of bituminous coal, varying in thickness from 3 to 4½ feet, two of which are No. 1 coking coal; two seams of limestone, one 6 feet thick, and one 15 feet thick; two seams iron ore, one 3 feet thick, analyzing 31 per cent. metallic iron; the other, 12 to 16 inches thick, analyzing 45 per cent. metallic iron; a vein of very superior fire clay, which has been used in Pittsburgh for years, for manufacture of fire brick.

This fine tract was noticed and spoken of in Roger's Geological Report of Pennsylvania. Connected with these tracts are some five hundred acres of ore leases, which run for three to five years yet, on which are mines opened and furnished with tracks, cars, etc. At three different places along the Allegheny Valley Railroad are sidings belonging to furnace, for shipping ores. The above ore leases to be sold with the Monticello furnace tract.

TERMS OF SALE:

To be one-half of purchase money Cash, on the delivery of deed, and the balance in two equal payments at six and twelve months, at rate of seven per cent. per annum, payable with each installment, to be secured by bond and mortgage on premises.
